Subject Index

Absorption
Removal of Vaporous Naphthalene Using Polyoxyethylenated Nonionic Surfactants, 983

Accuracy Assessment
A Feasibility Study on the Predictive Emission Monitoring System Applied to the Hsinta Power Plant of Taiwan Power Company, 1022

Acetone
Adsorption and Desorption Characteristics of Semiconductor Volatile Organic Compounds on the Thermal Swing Honeycomb Zeolite Concentrator, 1384

Acid Deposition
Estimates of Cloud Water Deposition at Mountain Acid Deposition Program Sites in the Appalachian Mountains, 291

Acidic Precipitation
Estimates of Cloud Water Deposition at Mountain Acid Deposition Program Sites in the Appalachian Mountains, 291

Activated Sludge Process
Case Studies on Biological Treatment of Tannery Effluents in India, 976

Aerosol Research Inhalation Epidemiology Study (ARIES)
Effects of Changes in Sulfate, Ammonia, and Nitric Acid on Particulate Nitrate Concentrations in the Southeastern United States, 283

Aerosols
Worshippers' Exposure to Particulate Matter in Two Temples in Taiwan, 130
Seasonal Aerosol Sulfate Trends for Selected Regions of the United States, 168
Emissions from Charbroiling and Grilling of Chicken and Beef, 185
Entrainment of Radio Frequency Chaff by Wind as a Function of Surface Aerodynamic Roughness, 206
Daily Surface UV Exposure and Its Relationship to Surface Pollutant Measurements, 237
Characterization of Exhaust Particles from Military Vehicles Fueled with Diesel, Gasoline, and JP-8, 273
Source Apportionment of Phoenix $PM_{2.5}$ Aerosol with the Unmix Receptor Model, 325
Source Apportionment of Airborne Fine Particulate Matter in an Underground Mine, 386
Application of the Tracer-Aerosol Gradient Interpretive Technique to Sulfur Attribution for the Big Bend Regional Aerosol and Visibility Observational Study, 586
Adjusting Tapered Element Oscillating Microbalance Data for Comparison with Federal Reference Method $PM_{2.5}$ Measurements in Region 5, 596
Day-of-Week Patterns of Particulate Matter and Its Chemical Components at Selected Sites in California, 876
The Distribution of Particle-Phase Organic Compounds in the Atmosphere and Their Use for Source Apportionment during the Southern California Children's Health Study, 1065
Does the Harvard/U.S. Environmental Protection Agency Ambient Particle Concentrator Change the Toxic Potential of Particles?, 1088
$PM_{2.5}$ Mass and Light Extinction Reconstruction in IMPROVE, 1109
Neural Network and Multiple Regression Models for PM_{10} Prediction in Athens: A Comparative Assessment, 1183
A Constant-Volume Rapid Exhaust Dilution System for Motor Vehicle Particulate Matter Number and Mass Measurements, 1196
The Impact of a Building Implosion on Airborne Particulate Matter in an Urban Community, 1256
Hygroscopic Organic Aerosols during BRAVO?, 1273
Impact of Unleaded Gasoline Introduction on the Concentration of Lead in the Air of Dhaka, Bangladesh, 1355
The Southeastern Aerosol Research and Characterization Study: Part 1—Overview, 1460
Particulate Matter in California: Part 1—Intercomparison of Several $PM_{2.5}$, $PM_{10-2.5}$, and PM_{10} Monitoring Networks, 1509
Particulate Matter in California: Part 2—Spatial, Temporal, and Compositional Patterns of $PM_{2.5}$, $PM_{10-2.5}$, and PM_{10}, 1517

Agriculture
A Passive Flux Denuder for Evaluating Emissions of Ammonia at a Dairy Farm, 937

Agriculture
Effect of pH and Temperature on the Kinetics of Odor Oxidation Using Chlorine Dioxide, 1218

Air Pollution
Interpretation of Air Pollution Mortality: Number of Deaths or Years of Life Lost?, 41
Worshippers' Exposure to Particulate Matter in Two Temples in Taiwan, 130
Emissions from Charbroiling and Grilling of Chicken and Beef, 185
Utilization of Selected Area Electron Diffraction Patterns for Characterization of Air Submicron Particulate Matter Collected by a Thermophoretic Precipitator, 227
Daily Surface UV Exposure and Its Relationship to Surface Pollutant Measurements, 237
Absorption and Reaction Kinetics of Amines and Ammonia Solutions with Carbon Dioxide in Flue Gas, 246
Characterization of Exhaust Particles from Military Vehicles Fueled with Diesel, Gasoline, and JP-8, 273
Estimates of Cloud Water Deposition at Mountain Acid Deposition Program Sites in the Appalachian Mountains, 291
On the Relation between Seasonal Synoptic Circulation Types and Spatial Air Quality Characteristics in Athens, Greece, 309
Source Apportionment of Phoenix $PM_{2.5}$ Aerosol with the Unmix Receptor Model, 325
Ozone Exposure among Mexico City Outdoor Workers, 339
An Air Quality Modeling Study Comparing Two Possible Sites for the New International Airport for Mexico City, 366
An Application of Parametric and Nonparametric Models to the Assessment of Fluoride Levels in Vegetation Exposed to Stack Emissions of an Aluminum Reduction Plant in Greece, 396
Effect of Gasoline Formulation on the Formation of Photosmog: A Box Model Study, 425
Variables Affecting Emissions of PCDD/Fs from Uncontrolled Combustion of Household Waste in Barrels, 523
Prediction of SO_2 Levels Using Neural Networks, 532
Ground-Level Ozone Mapping in Large Urban Areas Using Multivariate Statistical Analysis: Application to the São Paulo Metropolitan Area, 553
Residential Indoor, Outdoor, and Workplace Concentrations of Carbonyl Compounds: Relationships with Personal Exposure Concentrations and Correlation with Sources, 560

$PM_{2.5}$ Assessment in 21 European Study Centers of ECRHS II: Method and First Winter Results, 617
Remote Monitoring of Air Pollutant Emissions from Point Sources by a Mobile Lidar/Sodar System, 716
Evolution of the Magnitude and Spatial Extent of the Weekend Ozone Effect in California's South Coast Air Basin, 1981–2000, 802
Weekday versus Weekend Activity Patterns for Ozone Precursor Emissions in California's South Coast Air Basin, 829
Diurnal and Weekday Variations in the Source Contributions of Ozone Precursors in California's South Coast Air Basin, 844
Analysis of a Summertime $PM_{2.5}$ and Haze Episode in the Mid-Atlantic Region, 946
Particulate and Sulfur Dioxide Concentration Measurements in Patras, Greece, 957
Changes in Physical Properties of a Compost Biofilter Treating Hydrogen Sulfide, 1011
Summertime Measurements of Benzene and Toluene in Athens Using a Differential Optical Absorption Spectroscopy System, 1052
Toxicity of Chemical Components of Fine Particles Inhaled by Aged Rats: Effects of Concentration, 1080
Does the Harvard/U.S. Environmental Protection Agency Ambient Particle Concentrator Change the Toxic Potential of Particles?, 1088
Evaluation of a Low-Cost Transient Mass Measurement System in Vehicle Inspection and Maintenance Testing: Results of a Gordon-Darby Study, 1098
$PM_{2.5}$ Mass and Light Extinction Reconstruction in IMPROVE, 1109
Impact of Polycyclic Aromatic Hydrocarbon Emissions from Medical Waste Incinerators on the Urban Atmosphere, 1149
Neural Network and Multiple Regression Models for PM_{10} Prediction in Athens: A Comparative Assessment, 1183
A Constant-Volume Rapid Exhaust Dilution System for Motor Vehicle Particulate Matter Number and Mass Measurements, 1196
Development of a Microscale Emission Factor Model for Particulate Matter for Predicting Real-Time Motor Vehicle Emissions, 1204
Biofiltration of Trichloroethylene-Contaminated Air: A Pilot Study, 1248
The Impact of a Building Implosion on Airborne Particulate Matter in an Urban Community, 1256
An Air Pollution Modeling Study Using Three Surface Coverings Near the New International Airport of Mexico City, 1280
Impact of Unleaded Gasoline Introduction on the Concentration of Lead in the Air of Dhaka, Bangladesh, 1355
Forecasting Peak Daily Ozone Levels: Part 2—A Regression with Time Series Errors Model Having a Principal Component Trigger to Forecast 1999 and 2002 Ozone Levels, 1472
Atmospheric Particulate Matter and Polycyclic Aromatic Hydrocarbons for PM_{10} and Size-Segregated Samples in Bangkok, 1490
Comparison of the 1-Hr and 8-Hr National Ambient Air Quality Standards for Ozone Using Models-3, 1531

Air Pollution Standards
Comparisons of Statistical Characteristics of Air Pollutants in Taiwan by Frequency Distribution, 608

Air Quality
Seasonal Aerosol Sulfate Trends for Selected Regions of the United States, 168
Entrainment of Radio Frequency Chaff by Wind as a Function of Surface Aerodynamic Roughness, 206
On the Relation between Seasonal Synoptic Circulation Types and Spatial Air Quality Characteristics in Athens, Greece, 309
An Air Quality Modeling Study Comparing Two Possible Sites for the New International Airport for Mexico City, 366
Prediction of SO_2 Levels Using Neural Networks, 532
Comparisons of Statistical Characteristics of Air Pollutants in Taiwan by Frequency Distribution, 608
$PM_{2.5}$ Assessment in 21 European Study Centers of ECRHS II: Method and First Winter Results, 617
Revised Air-Exchange Efficiency Considering Occupant Distribution in Ventilated Rooms, 759
Evolution of the Magnitude and Spatial Extent of the Weekend Ozone Effect in California's South Coast Air Basin, 1981–2000, 802
Diurnal and Weekday Variations in the Source Contributions of Ozone Precursors in California's South Coast Air Basin, 844
The Effect of Reformulated Gasoline on Ambient Carbon Monoxide Concentrations in Southeastern Wisconsin, 1003
Development of a Microscale Emission Factor Model for Particulate Matter for Predicting Real-Time Motor Vehicle Emissions, 1204
Lagrangian Dispersion Modeling of Vehicular Emissions from a Highway in Complex Terrain, 1233
Simultaneous Sampling of Gas- and Aerosol-Phase TDI with a Triple Filter System, 1265
An Air Pollution Modeling Study Using Three Surface Coverings Near the New International Airport of Mexico City, 1280
An Environmental Decision-Making Tool for Evaluating Ground-Level Ozone-Related Health Effects, 1448
Forecasting Peak Daily Ozone Levels: Part 2—A Regression with Time Series Errors Model Having a Principal Component Trigger to Forecast 1999 and 2002 Ozone Levels, 1472

Air Quality Standards
Comparison of the 1-Hr and 8-Hr National Ambient Air Quality Standards for Ozone Using Models-3, 1531

Air Quality Studies
Application of the Tracer-Aerosol Gradient Interpretive Technique to Sulfur Attribution for the Big Bend Regional Aerosol and Visibility Observational Study, 586

Air Quality Trends Report
Seasonal Aerosol Sulfate Trends for Selected Regions of the United States, 168

Air Toxics
Release of Mercury from Broken Fluorescent Bulbs, 143
Emissions from Charbroiling and Grilling of Chicken and Beef, 185
An Application of Parametric and Nonparametric Models to the Assessment of Fluoride Levels in Vegetation Exposed to Stack Emissions of an Aluminum Reduction Plant in Greece, 396
Modeling Sorbent Injection for Mercury Control in Baghouse Filters: I—Model Development and Sensitivity Analysis, 478
Modeling Sorbent Injection for Mercury Control in Baghouse Filters: II—Pilot-Scale Studies and Model Evaluation, 489
Variables Affecting Emissions of PCDD/Fs from Uncontrolled Combustion of Household Waste in Barrels, 523

The Mobile Source Effect on Curbside 1,3-Butadiene, Benzene, and Particle-Bound Polycyclic Aromatic Hydrocarbons Assessed at a Tollbooth, 740
Day-of-Week Patterns in Toxic Air Contaminants in Southern California, 889
Does the Harvard/U.S. Environmental Protection Agency Ambient Particle Concentrator Change the Toxic Potential of Particles?, 1088
An Air Quality Data Analysis System for Interrelating Effects, Standards, and Needed Source Reductions: Part 13—Applying the EPA *Proposed Guidelines for Carcinogen Risk Assessment* to a Set of Asbestos Lung Cancer Mortality Data, 1326
Biofiltration of Cyclic Air Emissions of α-Pinene at Low and High Frequencies, 1373

Alternative/Innovative Technology
A New Method to Assess Mercury Emissions: A Study of Three Coal-Fired Electric-Generating Power Station Configurations, 1318

Ambient Air
Utilization of Selected Area Electron Diffraction Patterns for Characterization of Air Submicron Particulate Matter Collected by a Thermophoretic Precipitator, 227
Source Apportionment of Phoenix $PM_{2.5}$ Aerosol with the Unmix Receptor Model, 325
Residential Indoor, Outdoor, and Workplace Concentrations of Carbonyl Compounds: Relationships with Personal Exposure Concentrations and Correlation with Sources, 560
Day-of-Week Behavior of Atmospheric Ozone in Three U.S. Cities, 789
A Passive Flux Denuder for Evaluating Emissions of Ammonia at a Dairy Farm, 937
Toxicity of Chemical Components of Fine Particles Inhaled by Aged Rats: Effects of Concentration, 1080
Does the Harvard/U.S. Environmental Protection Agency Ambient Particle Concentrator Change the Toxic Potential of Particles?, 1088
The Impact of a Building Implosion on Airborne Particulate Matter in an Urban Community, 1256

Ambient Air Quality Standards
$PM_{2.5}$ Mass and Light Extinction Reconstruction in IMPROVE, 1109
Particulate Matter in California: Part 2—Spatial, Temporal, and Compositional Patterns of $PM_{2.5}$, $PM_{10-2.5}$, and PM_{10}, 1517
Comparison of the 1-Hr and 8-Hr National Ambient Air Quality Standards for Ozone Using Models-3, 1531

Ambient Concentrations
Estimates of Cloud Water Deposition at Mountain Acid Deposition Program Sites in the Appalachian Mountains, 291
Adjusting Tapered Element Oscillating Microbalance Data for Comparison with Federal Reference Method $PM_{2.5}$ Measurements in Region 5, 596
Day-of-Week Patterns of Particulate Matter and Its Chemical Components at Selected Sites in California, 876
Day-of-Week Patterns in Toxic Air Contaminants in Southern California, 889
Toxicity of Chemical Components of Fine Particles Inhaled by Aged Rats: Effects of Concentration, 1080
Does the Harvard/U.S. Environmental Protection Agency Ambient Particle Concentrator Change the Toxic Potential of Particles?, 1088
The Impact of a Building Implosion on Airborne Particulate Matter in an Urban Community, 1256
The Southeastern Aerosol Research and Characterization Study: Part 1—Overview, 1460
Determination of Atmospheric Nitrogen Input to Lake Greenwood, South Carolina: Part 2—Gaseous Measurements and Modeling, 1499

Anaerobic Digestion
Pig Slurry Concentration by Vacuum Evaporation: Influence of Previous Mesophilic Anaerobic Digestion Process, 21

Analytical Methods
Utilization of Selected Area Electron Diffraction Patterns for Characterization of Air Submicron Particulate Matter Collected by a Thermophoretic Precipitator, 227
Tank Atmosphere Perturbation: A Procedure for Assessing Flashing Losses from Oil Storage Tanks, 360
Adjusting Tapered Element Oscillating Microbalance Data for Comparison with Federal Reference Method $PM_{2.5}$ Measurements in Region 5, 596
Evaluation of NO_x Flue Gas Analyzers for Accuracy and Their Applicability for Low-Concentration Measurements, 749
A New Method to Assess Mercury Emissions: A Study of Three Coal-Fired Electric-Generating Power Station Configurations, 1318
Particulate Matter in California: Part 1—Intercomparison of Several $PM_{2.5}$, $PM_{10-2.5}$, and PM_{10} Monitoring Networks, 1509

Applications
Ground-Level Ozone Mapping in Large Urban Areas Using Multivariate Statistical Analysis: Application to the São Paulo Metropolitan Area, 553
Effectiveness in the Use of Natural Gas for the Reduction of Atmospheric Emissions: Case Study—Industrial Sector in the Metropolitan Region of Santiago, Chile, 971

Area Sources
A Passive Flux Denuder for Evaluating Emissions of Ammonia at a Dairy Farm, 937

Ash, Fly
Utilization of Coal Fly Ash as a Slow-Release Granular Medium for Soil Improvement, 77
Generation of PCDD/F in Fly Ash from Municipal Solid Waste Incinerators, 914
Latent Hydraulic Reactivity of Blended Cement Incorporating Slag Made from Municipal Solid Waste Incinerator Fly Ash, 1340

Atmospheric Chemistry
Fate and Potential Environmental Effects of Methylenediphenyl Diisocyanate and Toluene Diisocyanate Released into the Atmosphere, 61
The Ozone Formation Potential of 1-Bromo-Propane, 262
Estimates of Cloud Water Deposition at Mountain Acid Deposition Program Sites in the Appalachian Mountains, 291
Effect of Gasoline Formulation on the Formation of Photosmog: A Box Model Study, 425
The Southeastern Aerosol Research and Characterization Study: Part 1—Overview, 1460
Determination of Atmospheric Nitrogen Input to Lake Greenwood, South Carolina: Part 2—Gaseous Measurements and Modeling, 1499

Automotive Exhaust
Source Profiles and Ozone Formation Potentials of Volatile Organic Compounds in Three Traffic Tunnels in Kaohsiung, Taiwan, 102

Real-World Vehicle Emissions: A Summary of the Twelfth Coordinating Research Council On-Road Vehicle Emissions Workshop, 152
Characterization of Exhaust Particles from Military Vehicles Fueled with Diesel, Gasoline, and JP-8, 273
Source Apportionment of Phoenix $PM_{2.5}$ Aerosol with the Unmix Receptor Model, 325
On-Road Measurement of Vehicle Tailpipe Emissions Using a Portable Instrument, 992
The Effect of Reformulated Gasoline on Ambient Carbon Monoxide Concentrations in Southeastern Wisconsin, 1003
The Distribution of Particle-Phase Organic Compounds in the Atmosphere and Their Use for Source Apportionment during the Southern California Children's Health Study, 1065
A Constant-Volume Rapid Exhaust Dilution System for Motor Vehicle Particulate Matter Number and Mass Measurements, 1196
Development of a Microscale Emission Factor Model for Particulate Matter for Predicting Real-Time Motor Vehicle Emissions, 1204
Impact of Unleaded Gasoline Introduction on the Concentration of Lead in the Air of Dhaka, Bangladesh, 1355

Baghouses
Trace Metal Distribution and Control in the Pilot-Scale Bubbling Fluidized Bed Combustor Equipped with the Pulse-Jet Fabric Filter, Limestone Injection, and the Humidification Reactor, 406
Modeling Sorbent Injection for Mercury Control in Baghouse Filters: I—Model Development and Sensitivity Analysis, 478
Modeling Sorbent Injection for Mercury Control in Baghouse Filters: II—Pilot-Scale Studies and Model Evaluation, 489

Batch Biofiltration
Removal of Ammonia by Biofilters: A Study with Flow-Modified System and Kinetics, 92

Benzene
Summertime Measurements of Benzene and Toluene in Athens Using a Differential Optical Absorption Spectroscopy System, 1052

Biofiltration
Degradation of Toluene, Xylene, and Trimethylbenzene Vapors by Biofiltration: A Comparison, 217

Black Carbon
Daily Surface UV Exposure and Its Relationship to Surface Pollutant Measurements, 237

Calculation Methods
Day-of-Week Patterns in Toxic Air Contaminants in Southern California, 889

Calibration
Utilization of Selected Area Electron Diffraction Patterns for Characterization of Air Submicron Particulate Matter Collected by a Thermophoretic Precipitator, 227

Carbon Dioxide
Absorption and Reaction Kinetics of Amines and Ammonia Solutions with Carbon Dioxide in Flue Gas, 246
2003 Critical Review: Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations—Coalbeds and Deep Saline Aquifers, 645
On-Road Measurement of Vehicle Tailpipe Emissions Using a Portable Instrument, 992
2003 Critical Review Discussion—Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations, 1172

Carbon Isotopes
Sulfur and Carbon Cycling in a Flue Gas Desulfurization Sludge Disposal Site, 417

Carbon Monoxide
Meta-Analysis of Time-Series Studies of Air Pollution and Mortality: Update in Relation to the Use of Generalized Additive Models, 258
On-Road Measurement of Vehicle Tailpipe Emissions Using a Portable Instrument, 992
The Effect of Reformulated Gasoline on Ambient Carbon Monoxide Concentrations in Southeastern Wisconsin, 1003
An Assessment of the Emissions Inventory Processing Systems EMS-2001 and SMOKE in Grid-Based Air Quality Models, 1121

Carbonyl Compounds
Volatile Organic Profiles and Photochemical Potentials from Motorcycle Engine Exhaust, 516
Residential Indoor, Outdoor, and Workplace Concentrations of Carbonyl Compounds: Relationships with Personal Exposure Concentrations and Correlation with Sources, 560

Carcinogens
An Air Quality Data Analysis System for Interrelating Effects, Standards, and Needed Source Reductions: Part 13—Applying the EPA *Proposed Guidelines for Carcinogen Risk Assessment* to a Set of Asbestos Lung Cancer Mortality Data, 1326

Catalyst Recovery
Catalytic Gasification of Coal Using Eutectic Salts: Recovery, Regeneration, and Recycle of Spent Eutectic Catalysts, 451

Catalytic Conversion
Catalytic Gasification of Coal Using Eutectic Salts: Recovery, Regeneration, and Recycle of Spent Eutectic Catalysts, 451

Characterization
Emissions from Charbroiling and Grilling of Chicken and Beef, 185
Utilization of Selected Area Electron Diffraction Patterns for Characterization of Air Submicron Particulate Matter Collected by a Thermophoretic Precipitator, 227
Variables Affecting Emissions of PCDD/Fs from Uncontrolled Combustion of Household Waste in Barrels, 523
Particulate Matter in California: Part 2—Spatial, Temporal, and Compositional Patterns of $PM_{2.5}$, $PM_{10-2.5}$, and PM_{10}, 1517

Chlorofluorocarbons
A Life-Cycle Comparison of Several Auxiliary Blowing Agents Used for the Manufacture of Rigid Polyurethane Foam, 469

Clean Air Act Amendments
Evaluation of NO_x Flue Gas Analyzers for Accuracy and Their Applicability for Low-Concentration Measurements, 749

Clean Air Status and Trends Network (CASTNet)
Seasonal Aerosol Sulfate Trends for Selected Regions of the United States, 168

Cleanup Standards
Using Fiber Optics to Detect Moisture Intrusion into a Landfill Cap Consisting of a Vegetative Soil Barrier, 1130

Climate Change
Daily Surface UV Exposure and Its Relationship to Surface Pollutant Measurements, 237

2003 Critical Review: Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations—Coalbeds and Deep Saline Aquifers, 645
2003 Critical Review Discussion—Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations, 1172

Cloud Water Chemistry
Estimates of Cloud Water Deposition at Mountain Acid Deposition Program Sites in the Appalachian Mountains, 291

Cloud Water Deposition
Estimates of Cloud Water Deposition at Mountain Acid Deposition Program Sites in the Appalachian Mountains, 291

Coal-Burning Facilities
Sulfur and Carbon Cycling in a Flue Gas Desulfurization Sludge Disposal Site, 417
Modeling Sorbent Injection for Mercury Control in Baghouse Filters: I—Model Development and Sensitivity Analysis, 478
Modeling Sorbent Injection for Mercury Control in Baghouse Filters: II—Pilot-Scale Studies and Model Evaluation, 489
A New Method to Assess Mercury Emissions: A Study of Three Coal-Fired Electric-Generating Power Station Configurations, 1318
Quantification of Hourly Variability in NO_x Emissions for Baseload Coal-Fired Power Plants, 1401

Cofiring
Trace Metal Distribution and Control in the Pilot-Scale Bubbling Fluidized Bed Combustor Equipped with the Pulse-Jet Fabric Filter, Limestone Injection, and the Humidification Reactor, 406

Combustion
Utilization of Coal Fly Ash as a Slow-Release Granular Medium for Soil Improvement, 77
Waste Burning and Heat Recovery Characteristics of a Mass Burn Incineration System, 136
Variables Affecting Emissions of PCDD/Fs from Uncontrolled Combustion of Household Waste in Barrels, 523
Evaluation of the Digital Opacity Compliance System in High Mountain Desert Environments, 724
Effectiveness in the Use of Natural Gas for the Reduction of Atmospheric Emissions: Case Study—Industrial Sector in the Metropolitan Region of Santiago, Chile, 971
The Distribution of Particle-Phase Organic Compounds in the Atmosphere and Their Use for Source Apportionment during the Southern California Children's Health Study, 1065
Thermal Exploitation of Wastes with Lignite for Energy Production, 1301
Methods for Quantifying Variability and Uncertainty in AP-42 Emission Factors: Case Studies for Natural Gas-Fueled Engines, 1436

Common Effluent Treatment Plants
Case Studies on Biological Treatment of Tannery Effluents in India, 976

Compliance
Evaluation of NO_x Flue Gas Analyzers for Accuracy and Their Applicability for Low-Concentration Measurements, 749
Comparison of the 1-Hr and 8-Hr National Ambient Air Quality Standards for Ozone Using Models-3, 1531

Compost
Degradation of Toluene, Xylene, and Trimethylbenzene Vapors by Biofiltration: A Comparison, 217

Comprehensive Air Quality Model with Extensions (CAMx)
Modeling Weekday/Weekend Ozone Differences in the Los Angeles Region for 1997, 864

Concentrated Ambient Particles (CAPs)
Does the Harvard/U.S. Environmental Protection Agency Ambient Particle Concentrator Change the Toxic Potential of Particles?, 1088

Contaminated Soil
Using Fiber Optics to Detect Moisture Intrusion into a Landfill Cap Consisting of a Vegetative Soil Barrier, 1130
Strength Development of Solidified/Stabilized Organic Waste and Optimum Treatment Design, 1363

Continuous Emission Monitoring
Evaluation of NO_x Flue Gas Analyzers for Accuracy and Their Applicability for Low-Concentration Measurements, 749
On-Road Measurement of Vehicle Tailpipe Emissions Using a Portable Instrument, 992
A Feasibility Study on the Predictive Emission Monitoring System Applied to the Hsinta Power Plant of Taiwan Power Company, 1022

Control Strategies
Understanding the Effectiveness of Precursor Reductions in Lowering 8-Hr Ozone Concentrations, 195
Weekday versus Weekend Activity Patterns for Ozone Precursor Emissions in California's South Coast Air Basin, 829
Effectiveness in the Use of Natural Gas for the Reduction of Atmospheric Emissions: Case Study—Industrial Sector in the Metropolitan Region of Santiago, Chile, 971
The Effect of Reformulated Gasoline on Ambient Carbon Monoxide Concentrations in Southeastern Wisconsin, 1003
The Impact of a Building Implosion on Airborne Particulate Matter in an Urban Community, 1256
Simultaneous Sampling of Gas- and Aerosol-Phase TDI with a Triple Filter System, 1265
An Air Pollution Modeling Study Using Three Surface Coverings Near the New International Airport of Mexico City, 1280
An Environmental Decision-Making Tool for Evaluating Ground-Level Ozone-Related Health Effects, 1448
Particulate Matter in California: Part 2—Spatial, Temporal, and Compositional Patterns of $PM_{2.5}$, $PM_{10-2.5}$, and PM_{10}, 1517

Control Technologies
Method for Predicting Photocatalytic Oxidation Rates of Organic Compounds, 3
Absorption and Reaction Kinetics of Amines and Ammonia Solutions with Carbon Dioxide in Flue Gas, 246
2003 Critical Review: Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations—Coalbeds and Deep Saline Aquifers, 645
2003 Critical Review Discussion—Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations, 1172
Effect of pH and Temperature on the Kinetics of Odor Oxidation Using Chlorine Dioxide, 1218
Biofiltration of Trichloroethylene-Contaminated Air: A Pilot Study, 1248

Biofiltration of Cyclic Air Emissions of α-Pinene at Low and High Frequencies, 1373

Correlation
Mixed Models for Assessing Correlation in the Presence of Replication, 442

Costs
A Feasibility Study on the Predictive Emission Monitoring System Applied to the Hsinta Power Plant of Taiwan Power Company, 1022

Data Collection
Evaluation of NO_x Flue Gas Analyzers for Accuracy and Their Applicability for Low-Concentration Measurements, 749
Weekday versus Weekend Activity Patterns for Ozone Precursor Emissions in California's South Coast Air Basin, 829

Data Quality
Methods for Quantifying Variability and Uncertainty in AP-42 Emission Factors: Case Studies for Natural Gas-Fueled Engines, 1436

Decision-Making
On the Relation between Seasonal Synoptic Circulation Types and Spatial Air Quality Characteristics in Athens, Greece, 309
A Two-Stage Interval-Stochastic Programming Model for Waste Management under Uncertainty, 540
Simultaneous Sampling of Gas- and Aerosol-Phase TDI with a Triple Filter System, 1265
An Environmental Decision-Making Tool for Evaluating Ground-Level Ozone-Related Health Effects, 1448
Forecasting Peak Daily Ozone Levels: Part 2—A Regression with Time Series Errors Model Having a Principal Component Trigger to Forecast 1999 and 2002 Ozone Levels, 1472

Destruction and Removal Efficiencies
Biofiltration of Cyclic Air Emissions of α-Pinene at Low and High Frequencies, 1373

Differential Optical Absorption Spectroscopy
Summertime Measurements of Benzene and Toluene in Athens Using a Differential Optical Absorption Spectroscopy System, 1052

Diisocyanates
Fate and Potential Environmental Effects of Methylenediphenyl Diisocyanate and Toluene Diisocyanate Released into the Atmosphere, 61

Dioxin Formation
Variables Affecting Emissions of PCDD/Fs from Uncontrolled Combustion of Household Waste in Barrels, 523

Dioxins/Furans
Generation of PCDD/F in Fly Ash from Municipal Solid Waste Incinerators, 914

Dispersion Models
Fate and Potential Environmental Effects of Methylenediphenyl Diisocyanate and Toluene Diisocyanate Released into the Atmosphere, 61
Impact of Polycyclic Aromatic Hydrocarbon Emissions from Medical Waste Incinerators on the Urban Atmosphere, 1149
Lagrangian Dispersion Modeling of Vehicular Emissions from a Highway in Complex Terrain, 1233
Simultaneous Sampling of Gas- and Aerosol-Phase TDI with a Triple Filter System, 1265
An Environmental Decision-Making Tool for Evaluating Ground-Level Ozone-Related Health Effects, 1448

Dust, Fugitive
Evaluation of the Digital Opacity Compliance System in High Mountain Desert Environments, 724
Does the Harvard/U.S. Environmental Protection Agency Ambient Particle Concentrator Change the Toxic Potential of Particles?, 1088
Control of Particle Re-Entrainment by Wetting the Exposed Surface of Dust Samples, 1191
Particulate Matter in California: Part 2—Spatial, Temporal, and Compositional Patterns of $PM_{2.5}$, $PM_{10-2.5}$, and PM_{10}, 1517

Economics
Simultaneous Sampling of Gas- and Aerosol-Phase TDI with a Triple Filter System, 1265
An Environmental Decision-Making Tool for Evaluating Ground-Level Ozone-Related Health Effects, 1448

Electric Utilities
Seasonal Aerosol Sulfate Trends for Selected Regions of the United States, 168
2003 Critical Review: Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations—Coalbeds and Deep Saline Aquifers, 645
2003 Critical Review Discussion—Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations, 1172
Quantification of Hourly Variability in NO_x Emissions for Baseload Coal-Fired Power Plants, 1401

Electrostatic and Magnetic Separation
Selective Leaching of Valuable Metals from Waste Printed Circuit Boards, 897

Electrostatic Precipitation
Selective Leaching of Valuable Metals from Waste Printed Circuit Boards, 897

Elemental Carbon
Short-Term Temporal Variation in $PM_{2.5}$ Mass and Chemical Composition during the Atlanta Supersite Experiment, 1999, 84

Emission Controls
Understanding the Effectiveness of Precursor Reductions in Lowering 8-Hr Ozone Concentrations, 195
Trace Metal Distribution and Control in the Pilot-Scale Bubbling Fluidized Bed Combustor Equipped with the Pulse-Jet Fabric Filter, Limestone Injection, and the Humidification Reactor, 406
2003 Critical Review: Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations—Coalbeds and Deep Saline Aquifers, 645
2003 Critical Review Discussion—Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations, 1172

Emission Inventories
Real-World Vehicle Emissions: A Summary of the Twelfth Coordinating Research Council On-Road Vehicle Emissions Workshop, 152
Tank Atmosphere Perturbation: A Procedure for Assessing Flashing Losses from Oil Storage Tanks, 360
Weekday versus Weekend Activity Patterns for Ozone Precursor Emissions in California's South Coast Air Basin, 829
Modeling Weekday/Weekend Ozone Differences in the Los Angeles Region for 1997, 864
A Passive Flux Denuder for Evaluating Emissions of Ammonia at a Dairy Farm, 937
The Effect of Reformulated Gasoline on Ambient Carbon Monoxide Concentrations in Southeastern Wisconsin, 1003

Emission Characteristics of Volatile Organic Compounds from Semiconductor Manufacturing, 1029
An Assessment of the Emissions Inventory Processing Systems EMS-2001 and SMOKE in Grid-Based Air Quality Models, 1121

Emission Rates
Real-World Vehicle Emissions: A Summary of the Twelfth Coordinating Research Council On-Road Vehicle Emissions Workshop, 152
Tank Atmosphere Perturbation: A Procedure for Assessing Flashing Losses from Oil Storage Tanks, 360
Fatal Flaws in Measuring Landfill Gas Generation Rates by Empirical Well Testing, 461
Remote Monitoring of Air Pollutant Emissions from Point Sources by a Mobile Lidar/Sodar System, 716
A Passive Flux Denuder for Evaluating Emissions of Ammonia at a Dairy Farm, 937
On-Road Measurement of Vehicle Tailpipe Emissions Using a Portable Instrument, 992
Evaluation of a Low-Cost Transient Mass Measurement System in Vehicle Inspection and Maintenance Testing: Results of a Gordon-Darby Study, 1098
Development of a Microscale Emission Factor Model for Particulate Matter for Predicting Real-Time Motor Vehicle Emissions, 1204
Particulate Matter Emissions during Transient Locomotive Operation: Preliminary Study, 1241
Quantification of Hourly Variability in NO_x Emissions for Baseload Coal-Fired Power Plants, 1401
Methods for Quantifying Variability and Uncertainty in AP-42 Emission Factors: Case Studies for Natural Gas-Fueled Engines, 1436

Emission Standards
Trace Metal Distribution and Control in the Pilot-Scale Bubbling Fluidized Bed Combustor Equipped with the Pulse-Jet Fabric Filter, Limestone Injection, and the Humidification Reactor, 406
Particulate Matter Emissions during Transient Locomotive Operation: Preliminary Study, 1241

Emissions
Gaseous and Particulate Emissions from a DC Arc Melter, 13
Release of Mercury from Broken Fluorescent Bulbs, 143
Real-World Vehicle Emissions: A Summary of the Twelfth Coordinating Research Council On-Road Vehicle Emissions Workshop, 152
Volatile Organic Profiles and Photochemical Potentials from Motorcycle Engine Exhaust, 516
Remote Monitoring of Air Pollutant Emissions from Point Sources by a Mobile Lidar/Sodar System, 716
Differences between Weekday and Weekend Air Pollutant Levels in Southern California, 816
Diurnal and Weekday Variations in the Source Contributions of Ozone Precursors in California's South Coast Air Basin, 844
Generation of PCDD/F in Fly Ash from Municipal Solid Waste Incinerators, 914
Effectiveness in the Use of Natural Gas for the Reduction of Atmospheric Emissions: Case Study—Industrial Sector in the Metropolitan Region of Santiago, Chile, 971
Emission Characteristics of Volatile Organic Compounds from Semiconductor Manufacturing, 1029
Impact of Polycyclic Aromatic Hydrocarbon Emissions from Medical Waste Incinerators on the Urban Atmosphere, 1149
Control of Particle Re-Entrainment by Wetting the Exposed Surface of Dust Samples, 1191
Thermal Exploitation of Wastes with Lignite for Energy Production, 1301
Quantification of Hourly Variability in NO_x Emissions for Baseload Coal-Fired Power Plants, 1401
Methods for Quantifying Variability and Uncertainty in AP-42 Emission Factors: Case Studies for Natural Gas-Fueled Engines, 1436
Particulate Matter in California: Part 2—Spatial, Temporal, and Compositional Patterns of $PM_{2.5}$, $PM_{10-2.5}$, and PM_{10}, 1517

Emissions Characterization
Fate and Potential Environmental Effects of Methylenediphenyl Diisocyanate and Toluene Diisocyanate Released into the Atmosphere, 61
Characterization of Exhaust Particles from Military Vehicles Fueled with Diesel, Gasoline, and JP-8, 273
Tank Atmosphere Perturbation: A Procedure for Assessing Flashing Losses from Oil Storage Tanks, 360
Variables Affecting Emissions of PCDD/Fs from Uncontrolled Combustion of Household Waste in Barrels, 523
Weekday versus Weekend Activity Patterns for Ozone Precursor Emissions in California's South Coast Air Basin, 829
Emission Characteristics of Volatile Organic Compounds from Semiconductor Manufacturing, 1029
A New Method to Assess Mercury Emissions: A Study of Three Coal-Fired Electric-Generating Power Station Configurations, 1318
Potential for Reducing Indoor Styrene Exposure from Copied Paper through Use of Low-Emitting Toners, 1347

Emissions Reduction
Seasonal Aerosol Sulfate Trends for Selected Regions of the United States, 168
Comparisons of Statistical Characteristics of Air Pollutants in Taiwan by Frequency Distribution, 608
Effectiveness in the Use of Natural Gas for the Reduction of Atmospheric Emissions: Case Study—Industrial Sector in the Metropolitan Region of Santiago, Chile, 971
Control of Particle Re-Entrainment by Wetting the Exposed Surface of Dust Samples, 1191
Simultaneous Sampling of Gas- and Aerosol-Phase TDI with a Triple Filter System, 1265
An Environmental Decision-Making Tool for Evaluating Ground-Level Ozone-Related Health Effects, 1448

Emissions, Anthropogenic
Day-of-Week Behavior of Atmospheric Ozone in Three U.S. Cities, 789

Emissions, Automotive
Comparison of Vehicle Exhaust Emissions from Modified Diesel Fuels, 67
Real-World Vehicle Emissions: A Summary of the Twelfth Coordinating Research Council On-Road Vehicle Emissions Workshop, 152
Characterization of Exhaust Particles from Military Vehicles Fueled with Diesel, Gasoline, and JP-8, 273
Source Apportionment of Phoenix $PM_{2.5}$ Aerosol with the Unmix Receptor Model, 325
Effect of Gasoline Formulation on the Formation of Photosmog: A Box Model Study, 425
The Mobile Source Effect on Curbside 1,3-Butadiene, Benzene, and Particle-Bound Polycyclic Aromatic Hydrocarbons Assessed at a Tollbooth, 740
On-Road Measurement of Vehicle Tailpipe Emissions Using a Portable Instrument, 992

Evaluation of a Low-Cost Transient Mass Measurement System in Vehicle Inspection and Maintenance Testing: Results of a Gordon-Darby Study, 1098
A Constant-Volume Rapid Exhaust Dilution System for Motor Vehicle Particulate Matter Number and Mass Measurements, 1196
Development of a Microscale Emission Factor Model for Particulate Matter for Predicting Real-Time Motor Vehicle Emissions, 1204
Impact of Unleaded Gasoline Introduction on the Concentration of Lead in the Air of Dhaka, Bangladesh, 1355

Emissions, Carbon Monoxide
The Effect of Reformulated Gasoline on Ambient Carbon Monoxide Concentrations in Southeastern Wisconsin, 1003

Emissions, Fugitive
Entrainment of Radio Frequency Chaff by Wind as a Function of Surface Aerodynamic Roughness, 206
A Passive Flux Denuder for Evaluating Emissions of Ammonia at a Dairy Farm, 937
Control of Particle Re-Entrainment by Wetting the Exposed Surface of Dust Samples, 1191

Emissions, Hydrocarbon
Tank Atmosphere Perturbation: A Procedure for Assessing Flashing Losses from Oil Storage Tanks, 360
Residential Indoor, Outdoor, and Workplace Concentrations of Carbonyl Compounds: Relationships with Personal Exposure Concentrations and Correlation with Sources, 560
Methods for Quantifying Variability and Uncertainty in AP-42 Emission Factors: Case Studies for Natural Gas-Fueled Engines, 1436

Emissions, Landfill Gas
Fatal Flaws in Measuring Landfill Gas Generation Rates by Empirical Well Testing, 461

Emissions, Natural
Does the Harvard/U.S. Environmental Protection Agency Ambient Particle Concentrator Change the Toxic Potential of Particles?, 1088

Emissions, Particulate
Gaseous and Particulate Emissions from a DC Arc Melter, 13

Enforcement
Evaluation of the Digital Opacity Compliance System in High Mountain Desert Environments, 724

Environmental Management
Utilization of Coal Fly Ash as a Slow-Release Granular Medium for Soil Improvement, 77
On the Relation between Seasonal Synoptic Circulation Types and Spatial Air Quality Characteristics in Athens, Greece, 309
A Two-Stage Interval-Stochastic Programming Model for Waste Management under Uncertainty, 540
Effectiveness in the Use of Natural Gas for the Reduction of Atmospheric Emissions: Case Study—Industrial Sector in the Metropolitan Region of Santiago, Chile, 971
Simultaneous Sampling of Gas- and Aerosol-Phase TDI with a Triple Filter System, 1265
An Environmental Decision-Making Tool for Evaluating Ground-Level Ozone-Related Health Effects, 1448

Environmental Protection
Evaluation of a Low-Cost Transient Mass Measurement System in Vehicle Inspection and Maintenance Testing: Results of a Gordon-Darby Study, 1098

Epidemiology
Meta-Analysis of Time-Series Studies of Air Pollution and Mortality: Update in Relation to the Use of Generalized Additive Models, 258
Ozone Exposure among Mexico City Outdoor Workers, 339
$PM_{2.5}$ Assessment in 21 European Study Centers of ECRHS II: Method and First Winter Results, 617

Evaporation
Pig Slurry Concentration by Vacuum Evaporation: Influence of Previous Mesophilic Anaerobic Digestion Process, 21

Exposure Parameters
Ozone Exposure among Mexico City Outdoor Workers, 339
Residential Indoor, Outdoor, and Workplace Concentrations of Carbonyl Compounds: Relationships with Personal Exposure Concentrations and Correlation with Sources, 560

Fine Particulates
Short-Term Temporal Variation in $PM_{2.5}$ Mass and Chemical Composition during the Atlanta Supersite Experiment, 1999, 84

Flue Gases
Waste Burning and Heat Recovery Characteristics of a Mass Burn Incineration System, 136
Sulfur and Carbon Cycling in a Flue Gas Desulfurization Sludge Disposal Site, 417
A Feasibility Study on the Predictive Emission Monitoring System Applied to the Hsinta Power Plant of Taiwan Power Company, 1022

Fluorescent Bulbs
Release of Mercury from Broken Fluorescent Bulbs, 143

Fuels
Compatibility Analysis of Material and Energy Recovery in a Regional Solid Waste Management System, 32
Effect of Gasoline Formulation on the Formation of Photosmog: A Box Model Study, 425
Effectiveness in the Use of Natural Gas for the Reduction of Atmospheric Emissions: Case Study—Industrial Sector in the Metropolitan Region of Santiago, Chile, 971

Fuels, Alternative
Comparison of Vehicle Exhaust Emissions from Modified Diesel Fuels, 67
Trace Metal Distribution and Control in the Pilot-Scale Bubbling Fluidized Bed Combustor Equipped with the Pulse-Jet Fabric Filter, Limestone Injection, and the Humidification Reactor, 406
Effectiveness in the Use of Natural Gas for the Reduction of Atmospheric Emissions: Case Study—Industrial Sector in the Metropolitan Region of Santiago, Chile, 971

Fuels, Fossil
Waste Burning and Heat Recovery Characteristics of a Mass Burn Incineration System, 136
2003 Critical Review: Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations—Coalbeds and Deep Saline Aquifers, 645
2003 Critical Review Discussion—Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations, 1172
Quantification of Hourly Variability in NO_x Emissions for Baseload Coal-Fired Power Plants, 1401

Gas Chromatography
Source Profiles and Ozone Formation Potentials of Volatile Organic Compounds in Three Traffic Tunnels in Kaohsiung, Taiwan, 102
Potential for Reducing Indoor Styrene Exposure from Copied Paper through Use of Low-Emitting Toners, 1347

Biofiltration of Cyclic Air Emissions of α-Pinene at Low and High Frequencies, 1373

Gas Chromatography/Mass Spectrometry
Emissions from Charbroiling and Grilling of Chicken and Beef, 185
The Mobile Source Effect on Curbside 1,3-Butadiene, Benzene, and Particle-Bound Polycyclic Aromatic Hydrocarbons Assessed at a Tollbooth, 740

Gases, Greenhouse
Absorption and Reaction Kinetics of Amines and Ammonia Solutions with Carbon Dioxide in Flue Gas, 246
Fatal Flaws in Measuring Landfill Gas Generation Rates by Empirical Well Testing, 461

Gasification
Catalytic Gasification of Coal Using Eutectic Salts: Recovery, Regeneration, and Recycle of Spent Eutectic Catalysts, 451

Gasoline
Effect of Gasoline Formulation on the Formation of Photosmog: A Box Model Study, 425
The Effect of Reformulated Gasoline on Ambient Carbon Monoxide Concentrations in Southeastern Wisconsin, 1003

Global Warming/Greenhouse Effect
Daily Surface UV Exposure and Its Relationship to Surface Pollutant Measurements, 237
A Life-Cycle Comparison of Several Auxiliary Blowing Agents Used for the Manufacture of Rigid Polyurethane Foam, 469
2003 Critical Review: Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations—Coalbeds and Deep Saline Aquifers, 645
2003 Critical Review Discussion—Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations, 1172

Groundwater
Using Fiber Optics to Detect Moisture Intrusion into a Landfill Cap Consisting of a Vegetative Soil Barrier, 1130

Halocarbons
The Ozone Formation Potential of 1-Bromo-Propane, 262

Hazardous Air Pollutants
Method for Predicting Photocatalytic Oxidation Rates of Organic Compounds, 3
Release of Mercury from Broken Fluorescent Bulbs, 143
Emissions from Charbroiling and Grilling of Chicken and Beef, 185
Fatal Flaws in Measuring Landfill Gas Generation Rates by Empirical Well Testing, 461
Modeling Sorbent Injection for Mercury Control in Baghouse Filters: I—Model Development and Sensitivity Analysis, 478
Modeling Sorbent Injection for Mercury Control in Baghouse Filters: II—Pilot-Scale Studies and Model Evaluation, 489
Ground-Level Ozone Mapping in Large Urban Areas Using Multivariate Statistical Analysis: Application to the São Paulo Metropolitan Area, 553
The Mobile Source Effect on Curbside 1,3-Butadiene, Benzene, and Particle-Bound Polycyclic Aromatic Hydrocarbons Assessed at a Tollbooth, 740
Biofiltration of Trichloroethylene-Contaminated Air: A Pilot Study, 1248
An Air Quality Data Analysis System for Interrelating Effects, Standards, and Needed Source Reductions: Part 13—Applying the EPA *Proposed Guidelines for Carcinogen Risk Assessment* to a Set of Asbestos Lung Cancer Mortality Data, 1326
Impact of Unleaded Gasoline Introduction on the Concentration of Lead in the Air of Dhaka, Bangladesh, 1355

Hazardous Waste
Using Fiber Optics to Detect Moisture Intrusion into a Landfill Cap Consisting of a Vegetative Soil Barrier, 1130

Hazardous Waste Cleanup
Using Fiber Optics to Detect Moisture Intrusion into a Landfill Cap Consisting of a Vegetative Soil Barrier, 1130

Hazardous Waste Management
Using Fiber Optics to Detect Moisture Intrusion into a Landfill Cap Consisting of a Vegetative Soil Barrier, 1130

Hazardous Waste Sites
Using Fiber Optics to Detect Moisture Intrusion into a Landfill Cap Consisting of a Vegetative Soil Barrier, 1130

Haze
Evaluation of the Digital Opacity Compliance System in High Mountain Desert Environments, 724
Analysis of a Summertime $PM_{2.5}$ and Haze Episode in the Mid-Atlantic Region, 946
$PM_{2.5}$ Mass and Light Extinction Reconstruction in IMPROVE, 1109
Hygroscopic Organic Aerosols during BRAVO?, 1273

Health Effects/Risks
Entrainment of Radio Frequency Chaff by Wind as a Function of Surface Aerodynamic Roughness, 206
Utilization of Selected Area Electron Diffraction Patterns for Characterization of Air Submicron Particulate Matter Collected by a Thermophoretic Precipitator, 227
Meta-Analysis of Time-Series Studies of Air Pollution and Mortality: Update in Relation to the Use of Generalized Additive Models, 258
On the Relation between Seasonal Synoptic Circulation Types and Spatial Air Quality Characteristics in Athens, Greece, 309
Ozone Exposure among Mexico City Outdoor Workers, 339
Revised Air-Exchange Efficiency Considering Occupant Distribution in Ventilated Rooms, 759
The Distribution of Particle-Phase Organic Compounds in the Atmosphere and Their Use for Source Apportionment during the Southern California Children's Health Study, 1065
Toxicity of Chemical Components of Fine Particles Inhaled by Aged Rats: Effects of Concentration, 1080
Does the Harvard/U.S. Environmental Protection Agency Ambient Particle Concentrator Change the Toxic Potential of Particles?, 1088
Simultaneous Sampling of Gas- and Aerosol-Phase TDI with a Triple Filter System, 1265
An Air Quality Data Analysis System for Interrelating Effects, Standards, and Needed Source Reductions: Part 13—Applying the EPA *Proposed Guidelines for Carcinogen Risk Assessment* to a Set of Asbestos Lung Cancer Mortality Data, 1326
Impact of Unleaded Gasoline Introduction on the Concentration of Lead in the Air of Dhaka, Bangladesh, 1355
An Environmental Decision-Making Tool for Evaluating Ground-Level Ozone-Related Health Effects, 1448

Heavy-Duty Diesel Emissions
Real-World Vehicle Emissions: A Summary of the Twelfth Coordinating Research Council On-Road Vehicle Emissions Workshop, 152

Human Exposure
Worshippers' Exposure to Particulate Matter in Two Temples in Taiwan, 130
Release of Mercury from Broken Fluorescent Bulbs, 143
Ozone Exposure among Mexico City Outdoor Workers, 339
Source Apportionment of Airborne Fine Particulate Matter in an Underground Mine, 386
Residential Indoor, Outdoor, and Workplace Concentrations of Carbonyl Compounds: Relationships with Personal Exposure Concentrations and Correlation with Sources, 560
Development of a Microscale Emission Factor Model for Particulate Matter for Predicting Real-Time Motor Vehicle Emissions, 1204
The Impact of a Building Implosion on Airborne Particulate Matter in an Urban Community, 1256
An Air Pollution Modeling Study Using Three Surface Coverings Near the New International Airport of Mexico City, 1280
An Air Quality Data Analysis System for Interrelating Effects, Standards, and Needed Source Reductions: Part 13—Applying the EPA *Proposed Guidelines for Carcinogen Risk Assessment* to a Set of Asbestos Lung Cancer Mortality Data, 1326

Humidity
Removal of Ammonia by Biofilters: A Study with Flow-Modified System and Kinetics, 92
$PM_{2.5}$ Mass and Light Extinction Reconstruction in IMPROVE, 1109
Hygroscopic Organic Aerosols during BRAVO?, 1273

Hydrocarbons
Method for Predicting Photocatalytic Oxidation Rates of Organic Compounds, 3
Tank Atmosphere Perturbation: A Procedure for Assessing Flashing Losses from Oil Storage Tanks, 360
Residential Indoor, Outdoor, and Workplace Concentrations of Carbonyl Compounds: Relationships with Personal Exposure Concentrations and Correlation with Sources, 560
The Mobile Source Effect on Curbside 1,3-Butadiene, Benzene, and Particle-Bound Polycyclic Aromatic Hydrocarbons Assessed at a Tollbooth, 740
Evolution of the Magnitude and Spatial Extent of the Weekend Ozone Effect in California's South Coast Air Basin, 1981–2000, 802
Diurnal and Weekday Variations in the Source Contributions of Ozone Precursors in California's South Coast Air Basin, 844
On-Road Measurement of Vehicle Tailpipe Emissions Using a Portable Instrument, 992

Incineration
Compatibility Analysis of Material and Energy Recovery in a Regional Solid Waste Management System, 32
Waste Burning and Heat Recovery Characteristics of a Mass Burn Incineration System, 136
Generation of PCDD/F in Fly Ash from Municipal Solid Waste Incinerators, 914
Impact of Polycyclic Aromatic Hydrocarbon Emissions from Medical Waste Incinerators on the Urban Atmosphere, 1149
Latent Hydraulic Reactivity of Blended Cement Incorporating Slag Made from Municipal Solid Waste Incinerator Fly Ash, 1340

Individual Exposure
Ozone Exposure among Mexico City Outdoor Workers, 339

Indoor Air Pollution
Release of Mercury from Broken Fluorescent Bulbs, 143
Residential Indoor, Outdoor, and Workplace Concentrations of Carbonyl Compounds: Relationships with Personal Exposure Concentrations and Correlation with Sources, 560
Analytical Solutions to Compartmental Indoor Air Quality Models with Application to Environmental Tobacco Smoke Concentrations Measured in a House, 918
The Impact of a Building Implosion on Airborne Particulate Matter in an Urban Community, 1256
Sources and Concentrations of Indoor Nitrogen Dioxide in Barcelona, Spain, 1312
Potential for Reducing Indoor Styrene Exposure from Copied Paper through Use of Low-Emitting Toners, 1347

Indoor Air Quality
Analytical Solutions to Compartmental Indoor Air Quality Models with Application to Environmental Tobacco Smoke Concentrations Measured in a House, 918

Industrial Pollution
An Application of Parametric and Nonparametric Models to the Assessment of Fluoride Levels in Vegetation Exposed to Stack Emissions of an Aluminum Reduction Plant in Greece, 396
Effectiveness in the Use of Natural Gas for the Reduction of Atmospheric Emissions: Case Study—Industrial Sector in the Metropolitan Region of Santiago, Chile, 971
Changes in Physical Properties of a Compost Biofilter Treating Hydrogen Sulfide, 1011
Methods for Quantifying Variability and Uncertainty in AP-42 Emission Factors: Case Studies for Natural Gas-Fueled Engines, 1436

Infrared Spectroscopy
The Reuse of Biosludge as an Adsorbent from a Petrochemical Wastewater Treatment Plant, 1042

Innovative Technologies
Changes in Physical Properties of a Compost Biofilter Treating Hydrogen Sulfide, 1011
Using Fiber Optics to Detect Moisture Intrusion into a Landfill Cap Consisting of a Vegetative Soil Barrier, 1130

Inspection/Maintenance
Real-World Vehicle Emissions: A Summary of the Twelfth Coordinating Research Council On-Road Vehicle Emissions Workshop, 152
The Effect of Reformulated Gasoline on Ambient Carbon Monoxide Concentrations in Southeastern Wisconsin, 1003
Evaluation of a Low-Cost Transient Mass Measurement System in Vehicle Inspection and Maintenance Testing: Results of a Gordon-Darby Study, 1098

Interagency Monitoring of Protected Visual Environments (IMPROVE)
$PM_{2.5}$ Mass and Light Extinction Reconstruction in IMPROVE, 1109

Isopropylalcohol
Adsorption and Desorption Characteristics of Semiconductor Volatile Organic Compounds on the Thermal Swing Honeycomb Zeolite Concentrator, 1384

Kinetics
Removal of Ammonia by Biofilters: A Study with Flow-Modified System and Kinetics, 92

Landfills
Sulfur and Carbon Cycling in a Flue Gas Desulfurization Sludge Disposal Site, 417
Fatal Flaws in Measuring Landfill Gas Generation Rates by Empirical Well Testing, 461
A Methodology to Estimate Odors around Landfill Sites: The Use of Methane as an Odor Index and Its Utility in Landfill Siting, 629
Using Fiber Optics to Detect Moisture Intrusion into a Landfill Cap Consisting of a Vegetative Soil Barrier, 1130
Latent Hydraulic Reactivity of Blended Cement Incorporating Slag Made from Municipal Solid Waste Incinerator Fly Ash, 1340
Partitioning Gas Tracer Tests for Measurement of Water in Municipal Solid Waste, 1391

Leachate
Toxicological Evaluation for the Hazard Assessment of Tire Crumb for Use in Public Playgrounds, 903

Leaching
Utilization of Coal Fly Ash as a Slow-Release Granular Medium for Soil Improvement, 77
Selective Leaching of Valuable Metals from Waste Printed Circuit Boards, 897
Latent Hydraulic Reactivity of Blended Cement Incorporating Slag Made from Municipal Solid Waste Incinerator Fly Ash, 1340

Lidar
Remote Monitoring of Air Pollutant Emissions from Point Sources by a Mobile Lidar/Sodar System, 716

Life Expectancy
Interpretation of Air Pollution Mortality: Number of Deaths or Years of Life Lost?, 41

Life-Cycle Analysis
A Life-Cycle Comparison of Several Auxiliary Blowing Agents Used for the Manufacture of Rigid Polyurethane Foam, 469

Limestone Scrubbing
Sulfur and Carbon Cycling in a Flue Gas Desulfurization Sludge Disposal Site, 417

Lognormal Distribution
Comparisons of Statistical Characteristics of Air Pollutants in Taiwan by Frequency Distribution, 608

Low-NO_x Analysis
Evaluation of NO_x Flue Gas Analyzers for Accuracy and Their Applicability for Low-Concentration Measurements, 749

Measurement Techniques
Remote Monitoring of Air Pollutant Emissions from Point Sources by a Mobile Lidar/Sodar System, 716
Changes in Physical Properties of a Compost Biofilter Treating Hydrogen Sulfide, 1011
Biofiltration of Cyclic Air Emissions of α-Pinene at Low and High Frequencies, 1373
Partitioning Gas Tracer Tests for Measurement of Water in Municipal Solid Waste, 1391
The Southeastern Aerosol Research and Characterization Study: Part 1—Overview, 1460
Particulate Matter in California: Part 1—Intercomparison of Several $PM_{2.5}$, $PM_{10-2.5}$, and PM_{10} Monitoring Networks, 1509

Mercury
Release of Mercury from Broken Fluorescent Bulbs, 143
Trace Metal Distribution and Control in the Pilot-Scale Bubbling Fluidized Bed Combustor Equipped with the Pulse-Jet Fabric Filter, Limestone Injection, and the Humidification Reactor, 406
Modeling Sorbent Injection for Mercury Control in Baghouse Filters: I—Model Development and Sensitivity Analysis, 478
Modeling Sorbent Injection for Mercury Control in Baghouse Filters: II—Pilot-Scale Studies and Model Evaluation, 489
A New Method to Assess Mercury Emissions: A Study of Three Coal-Fired Electric-Generating Power Station Configurations, 1318

Mesoscale Circulation
Urban Photochemical Pollution in the Iberian Peninsula: Lisbon and Barcelona Airsheds, 347

Metal Recovery
Comparison of Discharge Silver Concentrations from Electrolytic Plating and Metallic Replacement Silver Recovery Units, 434

Meteorological Conditions
Analysis of a Summertime $PM_{2.5}$ and Haze Episode in the Mid-Atlantic Region, 946
The Impact of a Building Implosion on Airborne Particulate Matter in an Urban Community, 1256
Forecasting Peak Daily Ozone Levels: Part 2—A Regression with Time Series Errors Model Having a Principal Component Trigger to Forecast 1999 and 2002 Ozone Levels, 1472

Methane
A Methodology to Estimate Odors around Landfill Sites: The Use of Methane as an Odor Index and Its Utility in Landfill Siting, 629

Metropolitan Areas
Ozone Exposure among Mexico City Outdoor Workers, 339
An Air Pollution Modeling Study Using Three Surface Coverings Near the New International Airport of Mexico City, 1280

Mexico City
Ozone Exposure among Mexico City Outdoor Workers, 339
An Air Quality Modeling Study Comparing Two Possible Sites for the New International Airport for Mexico City, 366

Microwaves
Microwave Plasma Conversion of Volatile Organic Compounds, 580

Mitigation
Effectiveness in the Use of Natural Gas for the Reduction of Atmospheric Emissions: Case Study—Industrial Sector in the Metropolitan Region of Santiago, Chile, 971

Mobile Sources
Source Profiles and Ozone Formation Potentials of Volatile Organic Compounds in Three Traffic Tunnels in Kaohsiung, Taiwan, 102
Real-World Vehicle Emissions: A Summary of the Twelfth Coordinating Research Council On-Road Vehicle Emissions Workshop, 152
Characterization of Exhaust Particles from Military Vehicles Fueled with Diesel, Gasoline, and JP-8, 273
Source Apportionment of Phoenix $PM_{2.5}$ Aerosol with the Unmix Receptor Model, 325
The Mobile Source Effect on Curbside 1,3-Butadiene, Benzene, and Particle-Bound Polycyclic Aromatic Hydrocarbons Assessed at a Tollbooth, 740
On-Road Measurement of Vehicle Tailpipe Emissions Using a Portable Instrument, 992
The Effect of Reformulated Gasoline on Ambient Carbon Monoxide Concentrations in Southeastern Wisconsin, 1003

The Distribution of Particle-Phase Organic Compounds in the Atmosphere and Their Use for Source Apportionment during the Southern California Children's Health Study, 1065
Evaluation of a Low-Cost Transient Mass Measurement System in Vehicle Inspection and Maintenance Testing: Results of a Gordon-Darby Study, 1098
Development of a Microscale Emission Factor Model for Particulate Matter for Predicting Real-Time Motor Vehicle Emissions, 1204
Particulate Matter Emissions during Transient Locomotive Operation: Preliminary Study, 1241

Modeling
Real-World Vehicle Emissions: A Summary of the Twelfth Coordinating Research Council On-Road Vehicle Emissions Workshop, 152
The Ozone Formation Potential of 1-Bromo-Propane, 262
An Air Quality Modeling Study Comparing Two Possible Sites for the New International Airport for Mexico City, 366
Source Apportionment of Airborne Fine Particulate Matter in an Underground Mine, 386
An Application of Parametric and Nonparametric Models to the Assessment of Fluoride Levels in Vegetation Exposed to Stack Emissions of an Aluminum Reduction Plant in Greece, 396
Effect of Gasoline Formulation on the Formation of Photosmog: A Box Model Study, 425
Modeling Sorbent Injection for Mercury Control in Baghouse Filters: I—Model Development and Sensitivity Analysis, 478
Modeling Sorbent Injection for Mercury Control in Baghouse Filters: II—Pilot-Scale Studies and Model Evaluation, 489
Ground-Level Ozone Mapping in Large Urban Areas Using Multivariate Statistical Analysis: Application to the São Paulo Metropolitan Area, 553
Source Identification of Atlanta Aerosol by Positive Matrix Factorization, 731
Revised Air-Exchange Efficiency Considering Occupant Distribution in Ventilated Rooms, 759
Modeling Weekday/Weekend Ozone Differences in the Los Angeles Region for 1997, 864
Analytical Solutions to Compartmental Indoor Air Quality Models with Application to Environmental Tobacco Smoke Concentrations Measured in a House, 918
Changes in Physical Properties of a Compost Biofilter Treating Hydrogen Sulfide, 1011
A Feasibility Study on the Predictive Emission Monitoring System Applied to the Hsinta Power Plant of Taiwan Power Company, 1022
An Assessment of the Emissions Inventory Processing Systems EMS-2001 and SMOKE in Grid-Based Air Quality Models, 1121
Neural Network and Multiple Regression Models for PM_{10} Prediction in Athens: A Comparative Assessment, 1183
An Air Pollution Modeling Study Using Three Surface Coverings Near the New International Airport of Mexico City, 1280
An Air Quality Data Analysis System for Interrelating Effects, Standards, and Needed Source Reductions: Part 13—Applying the EPA *Proposed Guidelines for Carcinogen Risk Assessment* to a Set of Asbestos Lung Cancer Mortality Data, 1326
Potential for Reducing Indoor Styrene Exposure from Copied Paper through Use of Low-Emitting Toners, 1347
Forecasting Peak Daily Ozone Levels: Part 2—A Regression with Time Series Errors Model Having a Principal Component Trigger to Forecast 1999 and 2002 Ozone Levels, 1472
Determination of Atmospheric Nitrogen Input to Lake Greenwood, South Carolina: Part 2—Gaseous Measurements and Modeling, 1499
Comparison of the 1-Hr and 8-Hr National Ambient Air Quality Standards for Ozone Using Models-3, 1531

Modified-Flow Ammonia
Removal of Ammonia by Biofilters: A Study with Flow-Modified System and Kinetics, 92

Monitoring
Particulate and Sulfur Dioxide Concentration Measurements in Patras, Greece, 957
The Effect of Reformulated Gasoline on Ambient Carbon Monoxide Concentrations in Southeastern Wisconsin, 1003
A Feasibility Study on the Predictive Emission Monitoring System Applied to the Hsinta Power Plant of Taiwan Power Company, 1022
Forecasting Peak Daily Ozone Levels: Part 2—A Regression with Time Series Errors Model Having a Principal Component Trigger to Forecast 1999 and 2002 Ozone Levels, 1472
Particulate Matter in California: Part 1—Intercomparison of Several $PM_{2.5}$, $PM_{10-2.5}$, and PM_{10} Monitoring Networks, 1509

Mortality
Interpretation of Air Pollution Mortality: Number of Deaths or Years of Life Lost?, 41

Motor Vehicles
Comparison of Vehicle Exhaust Emissions from Modified Diesel Fuels, 67
Real-World Vehicle Emissions: A Summary of the Twelfth Coordinating Research Council On-Road Vehicle Emissions Workshop, 152
Characterization of Exhaust Particles from Military Vehicles Fueled with Diesel, Gasoline, and JP-8, 273
Source Apportionment of Airborne Fine Particulate Matter in an Underground Mine, 386
Modeling Weekday/Weekend Ozone Differences in the Los Angeles Region for 1997, 864
On-Road Measurement of Vehicle Tailpipe Emissions Using a Portable Instrument, 992
The Distribution of Particle-Phase Organic Compounds in the Atmosphere and Their Use for Source Apportionment during the Southern California Children's Health Study, 1065
Development of a Microscale Emission Factor Model for Particulate Matter for Predicting Real-Time Motor Vehicle Emissions, 1204

Municipal Refuse
A Methodology to Estimate Odors around Landfill Sites: The Use of Methane as an Odor Index and Its Utility in Landfill Siting, 629

Municipal Solid Waste
Waste Burning and Heat Recovery Characteristics of a Mass Burn Incineration System, 136
Trace Metal Distribution and Control in the Pilot-Scale Bubbling Fluidized Bed Combustor Equipped with the Pulse-Jet Fabric Filter, Limestone Injection, and the Humidification Reactor, 406
Fatal Flaws in Measuring Landfill Gas Generation Rates by Empirical Well Testing, 461
Variables Affecting Emissions of PCDD/Fs from Uncontrolled Combustion of Household Waste in Barrels, 523

A Methodology to Estimate Odors around Landfill Sites: The Use of Methane as an Odor Index and Its Utility in Landfill Siting, 629
Generation of PCDD/F in Fly Ash from Municipal Solid Waste Incinerators, 914
Latent Hydraulic Reactivity of Blended Cement Incorporating Slag Made from Municipal Solid Waste Incinerator Fly Ash, 1340

Mutagenicity
An Air Quality Data Analysis System for Interrelating Effects, Standards, and Needed Source Reductions: Part 13—Applying the EPA *Proposed Guidelines for Carcinogen Risk Assessment* to a Set of Asbestos Lung Cancer Mortality Data, 1326

Neural Networks
Prediction of SO_2 Levels Using Neural Networks, 532

Nitrates
Effects of Changes in Sulfate, Ammonia, and Nitric Acid on Particulate Nitrate Concentrations in the Southeastern United States, 283
Differences between Weekday and Weekend Air Pollutant Levels in Southern California, 816

Nitrogen
Degradation of Toluene, Xylene, and Trimethylbenzene Vapors by Biofiltration: A Comparison, 217

Nitrogen Dioxide
Meta-Analysis of Time-Series Studies of Air Pollution and Mortality: Update in Relation to the Use of Generalized Additive Models, 258
Sources and Concentrations of Indoor Nitrogen Dioxide in Barcelona, Spain, 1312

Nitrogen Oxides
Estimates of Cloud Water Deposition at Mountain Acid Deposition Program Sites in the Appalachian Mountains, 291
Evaluation of NO_x Flue Gas Analyzers for Accuracy and Their Applicability for Low-Concentration Measurements, 749
Weekday/Weekend Ozone Differences: What Can We Learn from Them?, 772
Evolution of the Magnitude and Spatial Extent of the Weekend Ozone Effect in California's South Coast Air Basin, 1981–2000, 802
Differences between Weekday and Weekend Air Pollutant Levels in Southern California, 816
Diurnal and Weekday Variations in the Source Contributions of Ozone Precursors in California's South Coast Air Basin, 844
Modeling Weekday/Weekend Ozone Differences in the Los Angeles Region for 1997, 864
Day-of-Week Patterns of Particulate Matter and Its Chemical Components at Selected Sites in California, 876
On-Road Measurement of Vehicle Tailpipe Emissions Using a Portable Instrument, 992
A Feasibility Study on the Predictive Emission Monitoring System Applied to the Hsinta Power Plant of Taiwan Power Company, 1022
An Assessment of the Emissions Inventory Processing Systems EMS-2001 and SMOKE in Grid-Based Air Quality Models, 1121
Quantification of Hourly Variability in NO_x Emissions for Baseload Coal-Fired Power Plants, 1401
Methods for Quantifying Variability and Uncertainty in AP-42 Emission Factors: Case Studies for Natural Gas-Fueled Engines, 1436
The Southeastern Aerosol Research and Characterization Study: Part 1—Overview, 1460
Determination of Atmospheric Nitrogen Input to Lake Greenwood, South Carolina: Part 2—Gaseous Measurements and Modeling, 1499
Particulate Matter in California: Part 2—Spatial, Temporal, and Compositional Patterns of $PM_{2.5}$, $PM_{10-2.5}$, and PM_{10}, 1517

Nonattainment
Evaluation of NO_x Flue Gas Analyzers for Accuracy and Their Applicability for Low-Concentration Measurements, 749

Nonmethane Hydrocarbons
Tank Atmosphere Perturbation: A Procedure for Assessing Flashing Losses from Oil Storage Tanks, 360
Fatal Flaws in Measuring Landfill Gas Generation Rates by Empirical Well Testing, 461

Nonmethane Organic Gases
Source Profiles and Ozone Formation Potentials of Volatile Organic Compounds in Three Traffic Tunnels in Kaohsiung, Taiwan, 102
The Ozone Formation Potential of 1-Bromo-Propane, 262

Nutrient Recovery
Pig Slurry Concentration by Vacuum Evaporation: Influence of Previous Mesophilic Anaerobic Digestion Process, 21

Odors
Odor Concentration Decay and Stability in Gas Sampling Bags, 51
Removal of Ammonia by Biofilters: A Study with Flow-Modified System and Kinetics, 92
A Methodology to Estimate Odors around Landfill Sites: The Use of Methane as an Odor Index and Its Utility in Landfill Siting, 629
Changes in Physical Properties of a Compost Biofilter Treating Hydrogen Sulfide, 1011
Effect of pH and Temperature on the Kinetics of Odor Oxidation Using Chlorine Dioxide, 1218
Deodorization of Dimethyl Sulfide Using a Discharge Approach at Room Temperature, 1225

Olfactometry
Odor Concentration Decay and Stability in Gas Sampling Bags, 51

Opacity
Evaluation of the Digital Opacity Compliance System in High Mountain Desert Environments, 724

Optimization
A Two-Stage Interval-Stochastic Programming Model for Waste Management under Uncertainty, 540

Organic Carbon
Short-Term Temporal Variation in $PM_{2.5}$ Mass and Chemical Composition during the Atlanta Supersite Experiment, 1999, 84

Ozone
Meta-Analysis of Time-Series Studies of Air Pollution and Mortality: Update in Relation to the Use of Generalized Additive Models, 258
Ozone Exposure among Mexico City Outdoor Workers, 339
A Life-Cycle Comparison of Several Auxiliary Blowing Agents Used for the Manufacture of Rigid Polyurethane Foam, 469
Ground-Level Ozone Mapping in Large Urban Areas Using Multivariate Statistical Analysis: Application to the São Paulo Metropolitan Area, 553
Weekday/Weekend Ozone Differences: What Can We Learn from Them?, 772
Day-of-Week Behavior of Atmospheric Ozone in Three U.S. Cities, 789
Evolution of the Magnitude and Spatial Extent of the Weekend Ozone Effect in California's South Coast Air Basin, 1981–2000, 802
Differences between Weekday and Weekend Air Pollutant Levels in Southern California, 816

Weekday versus Weekend Activity Patterns for Ozone Precursor Emissions in California's South Coast Air Basin, 829
Diurnal and Weekday Variations in the Source Contributions of Ozone Precursors in California's South Coast Air Basin, 844
Toxicity of Chemical Components of Fine Particles Inhaled by Aged Rats: Effects of Concentration, 1080
An Assessment of the Emissions Inventory Processing Systems EMS-2001 and SMOKE in Grid-Based Air Quality Models, 1121
Forecasting Peak Daily Ozone Levels: Part 2—A Regression with Time Series Errors Model Having a Principal Component Trigger to Forecast 1999 and 2002 Ozone Levels, 1472

Ozone Formation
Fate and Potential Environmental Effects of Methylenediphenyl Diisocyanate and Toluene Diisocyanate Released into the Atmosphere, 61
Source Profiles and Ozone Formation Potentials of Volatile Organic Compounds in Three Traffic Tunnels in Kaohsiung, Taiwan, 102
The Ozone Formation Potential of 1-Bromo-Propane, 262
Effect of Gasoline Formulation on the Formation of Photosmog: A Box Model Study, 425
Ground-Level Ozone Mapping in Large Urban Areas Using Multivariate Statistical Analysis: Application to the São Paulo Metropolitan Area, 553
Evolution of the Magnitude and Spatial Extent of the Weekend Ozone Effect in California's South Coast Air Basin, 1981–2000, 802
Weekday versus Weekend Activity Patterns for Ozone Precursor Emissions in California's South Coast Air Basin, 829

Ozone, Stratospheric
Daily Surface UV Exposure and Its Relationship to Surface Pollutant Measurements, 237

Ozone, Tropospheric
Source Profiles and Ozone Formation Potentials of Volatile Organic Compounds in Three Traffic Tunnels in Kaohsiung, Taiwan, 102
Modeling Weekday/Weekend Ozone Differences in the Los Angeles Region for 1997, 864
Simultaneous Sampling of Gas- and Aerosol-Phase TDI with a Triple Filter System, 1265
An Environmental Decision-Making Tool for Evaluating Ground-Level Ozone-Related Health Effects, 1448
Forecasting Peak Daily Ozone Levels: Part 2—A Regression with Time Series Errors Model Having a Principal Component Trigger to Forecast 1999 and 2002 Ozone Levels, 1472
Comparison of the 1-Hr and 8-Hr National Ambient Air Quality Standards for Ozone Using Models-3, 1531

Particulate Matter (PM)
Interpretation of Air Pollution Mortality: Number of Deaths or Years of Life Lost?, 41
Effects of Changes in Sulfate, Ammonia, and Nitric Acid on Particulate Nitrate Concentrations in the Southeastern United States, 283
$PM_{2.5}$ Assessment in 21 European Study Centers of ECRHS II: Method and First Winter Results, 617
Source Identification of Atlanta Aerosol by Positive Matrix Factorization, 731
Day-of-Week Patterns of Particulate Matter and Its Chemical Components at Selected Sites in California, 876

Passive Samplers
A Passive Flux Denuder for Evaluating Emissions of Ammonia at a Dairy Farm, 937

Photocatalytic Oxidation
Method for Predicting Photocatalytic Oxidation Rates of Organic Compounds, 3

Photochemical Pollutants
Source Profiles and Ozone Formation Potentials of Volatile Organic Compounds in Three Traffic Tunnels in Kaohsiung, Taiwan, 102
Understanding the Effectiveness of Precursor Reductions in Lowering 8-Hr Ozone Concentrations, 195
The Ozone Formation Potential of 1-Bromo-Propane, 262
Urban Photochemical Pollution in the Iberian Peninsula: Lisbon and Barcelona Airsheds, 347
Evolution of the Magnitude and Spatial Extent of the Weekend Ozone Effect in California's South Coast Air Basin, 1981–2000, 802
Diurnal and Weekday Variations in the Source Contributions of Ozone Precursors in California's South Coast Air Basin, 844
Simultaneous Sampling of Gas- and Aerosol-Phase TDI with a Triple Filter System, 1265
An Environmental Decision-Making Tool for Evaluating Ground-Level Ozone-Related Health Effects, 1448

Pig Slurry
Pig Slurry Concentration by Vacuum Evaporation: Influence of Previous Mesophilic Anaerobic Digestion Process, 21

Plasma
Microwave Plasma Conversion of Volatile Organic Compounds, 580

Plumes
Remote Monitoring of Air Pollutant Emissions from Point Sources by a Mobile Lidar/Sodar System, 716

$PM_{2.5}$
Adjusting Tapered Element Oscillating Microbalance Data for Comparison with Federal Reference Method $PM_{2.5}$ Measurements in Region 5, 596
$PM_{2.5}$ Assessment in 21 European Study Centers of ECRHS II: Method and First Winter Results, 617
Analysis of a Summertime $PM_{2.5}$ and Haze Episode in the Mid-Atlantic Region, 946
Toxicity of Chemical Components of Fine Particles Inhaled by Aged Rats: Effects of Concentration, 1080

PM_{10}
Worshippers' Exposure to Particulate Matter in Two Temples in Taiwan, 130
Daily Surface UV Exposure and Its Relationship to Surface Pollutant Measurements, 237
Meta-Analysis of Time-Series Studies of Air Pollution and Mortality: Update in Relation to the Use of Generalized Additive Models, 258
Comparisons of Statistical Characteristics of Air Pollutants in Taiwan by Frequency Distribution, 608
$PM_{2.5}$ Assessment in 21 European Study Centers of ECRHS II: Method and First Winter Results, 617
Toxicity of Chemical Components of Fine Particles Inhaled by Aged Rats: Effects of Concentration, 1080
Neural Network and Multiple Regression Models for PM_{10} Prediction in Athens: A Comparative Assessment, 1183
Control of Particle Re-Entrainment by Wetting the Exposed Surface of Dust Samples, 1191
A Constant-Volume Rapid Exhaust Dilution System for Motor Vehicle Particulate Matter Number and Mass Measurements, 1196

Particulate Matter Emissions during Transient Locomotive Operation: Preliminary Study, 1241
Impact of Unleaded Gasoline Introduction on the Concentration of Lead in the Air of Dhaka, Bangladesh, 1355
Atmospheric Particulate Matter and Polycyclic Aromatic Hydrocarbons for PM_{10} and Size-Segregated Samples in Bangkok, 1490
Particulate Matter in California: Part 1—Intercomparison of Several $PM_{2.5}$, $PM_{10-2.5}$, and PM_{10} Monitoring Networks, 1509

Policy
A Two-Stage Interval-Stochastic Programming Model for Waste Management under Uncertainty, 540

Policy Decision-Making
The Ozone Formation Potential of 1-Bromo-Propane, 262
Quantification of Hourly Variability in NO_x Emissions for Baseload Coal-Fired Power Plants, 1401
Methods for Quantifying Variability and Uncertainty in AP-42 Emission Factors: Case Studies for Natural Gas-Fueled Engines, 1436

Pollutant Concentration
Estimates of Cloud Water Deposition at Mountain Acid Deposition Program Sites in the Appalachian Mountains, 291
Remote Monitoring of Air Pollutant Emissions from Point Sources by a Mobile Lidar/Sodar System, 716
The Mobile Source Effect on Curbside 1,3-Butadiene, Benzene, and Particle-Bound Polycyclic Aromatic Hydrocarbons Assessed at a Tollbooth, 740
A Feasibility Study on the Predictive Emission Monitoring System Applied to the Hsinta Power Plant of Taiwan Power Company, 1022
The Southeastern Aerosol Research and Characterization Study: Part 1—Overview, 1460

Pollution
Tradescantia pallida cv. *purpurea* Boom in the Characterization of Air Pollution by Accumulation of Trace Elements, 574

Pollution Control Equipment
Biofiltration of Cyclic Air Emissions of α-Pinene at Low and High Frequencies, 1373

Pollution Prevention
Potential for Reducing Indoor Styrene Exposure from Copied Paper through Use of Low-Emitting Toners, 1347
Forecasting Peak Daily Ozone Levels: Part 2—A Regression with Time Series Errors Model Having a Principal Component Trigger to Forecast 1999 and 2002 Ozone Levels, 1472

Polychlorinated Dibenzo Furans
Variables Affecting Emissions of PCDD/Fs from Uncontrolled Combustion of Household Waste in Barrels, 523

Polychlorinated Dibenzo P-dioxins
Variables Affecting Emissions of PCDD/Fs from Uncontrolled Combustion of Household Waste in Barrels, 523

Polycyclic Aromatic Hydrocarbons (PAHs)
Comparison of Vehicle Exhaust Emissions from Modified Diesel Fuels, 67
Emissions from Charbroiling and Grilling of Chicken and Beef, 185
Removal of Vaporous Naphthalene Using Polyoxyethylenated Nonionic Surfactants, 983
Impact of Polycyclic Aromatic Hydrocarbon Emissions from Medical Waste Incinerators on the Urban Atmosphere, 1149
Strength Development of Solidified/Stabilized Organic Waste and Optimum Treatment Design, 1363

Polyurethane Foam
A Life-Cycle Comparison of Several Auxiliary Blowing Agents Used for the Manufacture of Rigid Polyurethane Foam, 469

Potassium
Catalytic Gasification of Coal Using Eutectic Salts: Recovery, Regeneration, and Recycle of Spent Eutectic Catalysts, 451

Power Plants
Seasonal Aerosol Sulfate Trends for Selected Regions of the United States, 168
Absorption and Reaction Kinetics of Amines and Ammonia Solutions with Carbon Dioxide in Flue Gas, 246
Sulfur and Carbon Cycling in a Flue Gas Desulfurization Sludge Disposal Site, 417
Application of the Tracer-Aerosol Gradient Interpretive Technique to Sulfur Attribution for the Big Bend Regional Aerosol and Visibility Observational Study, 586
Remote Monitoring of Air Pollutant Emissions from Point Sources by a Mobile Lidar/Sodar System, 716
Evaluation of the Digital Opacity Compliance System in High Mountain Desert Environments, 724
A Feasibility Study on the Predictive Emission Monitoring System Applied to the Hsinta Power Plant of Taiwan Power Company, 1022
A New Method to Assess Mercury Emissions: A Study of Three Coal-Fired Electric-Generating Power Station Configurations, 1318
Quantification of Hourly Variability in NO_x Emissions for Baseload Coal-Fired Power Plants, 1401

Prediction
Prediction of SO_2 Levels Using Neural Networks, 532

Predictive Emission Monitoring System
A Feasibility Study on the Predictive Emission Monitoring System Applied to the Hsinta Power Plant of Taiwan Power Company, 1022

Primary Air Pollutants
Particulate and Sulfur Dioxide Concentration Measurements in Patras, Greece, 957

Printed Circuit Boards
Selective Leaching of Valuable Metals from Waste Printed Circuit Boards, 897

Process Analysis
Understanding the Effectiveness of Precursor Reductions in Lowering 8-Hr Ozone Concentrations, 195

Propylene Glycol Methyl Ether
Adsorption and Desorption Characteristics of Semiconductor Volatile Organic Compounds on the Thermal Swing Honeycomb Zeolite Concentrator, 1384

Propylene Glycol Monomethyl Ether Acetate
Adsorption and Desorption Characteristics of Semiconductor Volatile Organic Compounds on the Thermal Swing Honeycomb Zeolite Concentrator, 1384

Public Health
Worshippers' Exposure to Particulate Matter in Two Temples in Taiwan, 130
Utilization of Selected Area Electron Diffraction Patterns for Characterization of Air Submicron Particulate Matter Collected by a Thermophoretic Precipitator, 227

The Impact of a Building Implosion on Airborne Particulate Matter in an Urban Community, 1256
Impact of Unleaded Gasoline Introduction on the Concentration of Lead in the Air of Dhaka, Bangladesh, 1355

Real-Time Measurements
Analytical Solutions to Compartmental Indoor Air Quality Models with Application to Environmental Tobacco Smoke Concentrations Measured in a House, 918

Receptor Modeling
Source Apportionment of Phoenix $PM_{2.5}$ Aerosol with the Unmix Receptor Model, 325
Source Identification of Atlanta Aerosol by Positive Matrix Factorization, 731

Recycling
Utilization of Coal Fly Ash as a Slow-Release Granular Medium for Soil Improvement, 77
Catalytic Gasification of Coal Using Eutectic Salts: Recovery, Regeneration, and Recycle of Spent Eutectic Catalysts, 451
Latent Hydraulic Reactivity of Blended Cement Incorporating Slag Made from Municipal Solid Waste Incinerator Fly Ash, 1340

Reformulated Gasoline
The Effect of Reformulated Gasoline on Ambient Carbon Monoxide Concentrations in Southeastern Wisconsin, 1003

Refuse-Derived Fuel
Compatibility Analysis of Material and Energy Recovery in a Regional Solid Waste Management System, 32
Trace Metal Distribution and Control in the Pilot-Scale Bubbling Fluidized Bed Combustor Equipped with the Pulse-Jet Fabric Filter, Limestone Injection, and the Humidification Reactor, 406

Regeneration
Microwave Plasma Conversion of Volatile Organic Compounds, 580

Regulations
The Ozone Formation Potential of 1-Bromo-Propane, 262

Reliability
Mixed Models for Assessing Correlation in the Presence of Replication, 442

Remote Sensing
Remote Monitoring of Air Pollutant Emissions from Point Sources by a Mobile Lidar/Sodar System, 716

Research and Development
Potential for Reducing Indoor Styrene Exposure from Copied Paper through Use of Low-Emitting Toners, 1347
Biofiltration of Cyclic Air Emissions of α-Pinene at Low and High Frequencies, 1373

Respiratory Health
Utilization of Selected Area Electron Diffraction Patterns for Characterization of Air Submicron Particulate Matter Collected by a Thermophoretic Precipitator, 227
Toxicity of Chemical Components of Fine Particles Inhaled by Aged Rats: Effects of Concentration, 1080
The Impact of a Building Implosion on Airborne Particulate Matter in an Urban Community, 1256

Rubber
Toxicological Evaluation for the Hazard Assessment of Tire Crumb for Use in Public Playgrounds, 903

Rural Sites
Estimates of Cloud Water Deposition at Mountain Acid Deposition Program Sites in the Appalachian Mountains, 291
Particulate and Sulfur Dioxide Concentration Measurements in Patras, Greece, 957

Sampling
Odor Concentration Decay and Stability in Gas Sampling Bags, 51
Utilization of Selected Area Electron Diffraction Patterns for Characterization of Air Submicron Particulate Matter Collected by a Thermophoretic Precipitator, 227
Impact of Polycyclic Aromatic Hydrocarbon Emissions from Medical Waste Incinerators on the Urban Atmosphere, 1149
Partitioning Gas Tracer Tests for Measurement of Water in Municipal Solid Waste, 1391
Emission and Fate Assessment of Methyl Tertiary Butyl Ether in the Boston Area Airshed Using a Simple Multimedia Box Model: Comparison with Urban Air Measurements, 1426
Particulate Matter in California: Part 1—Intercomparison of Several $PM_{2.5}$, $PM_{10-2.5}$, and PM_{10} Monitoring Networks, 1509

Scanning Electronic Microscopy
The Reuse of Biosludge as an Adsorbent from a Petrochemical Wastewater Treatment Plant, 1042

Scrubbers
Waste Burning and Heat Recovery Characteristics of a Mass Burn Incineration System, 136
Absorption and Reaction Kinetics of Amines and Ammonia Solutions with Carbon Dioxide in Flue Gas, 246
Removal of Vaporous Naphthalene Using Polyoxyethylenated Nonionic Surfactants, 983
Effect of pH and Temperature on the Kinetics of Odor Oxidation Using Chlorine Dioxide, 1218

Seasonal Effects
Source Apportionment of Phoenix $PM_{2.5}$ Aerosol with the Unmix Receptor Model, 325

Selective Leaching
Selective Leaching of Valuable Metals from Waste Printed Circuit Boards, 897

Silver
Comparison of Discharge Silver Concentrations from Electrolytic Plating and Metallic Replacement Silver Recovery Units, 434

Slag
Effect of SiO_2 on Immobilization of Metals and Encapsulation of a Glass Network in Slag, 1412

Soil
Utilization of Coal Fly Ash as a Slow-Release Granular Medium for Soil Improvement, 77

Solar Radiation
Weekday/Weekend Ozone Differences: What Can We Learn from Them?, 772

Solid Waste
Compatibility Analysis of Material and Energy Recovery in a Regional Solid Waste Management System, 32
Utilization of Coal Fly Ash as a Slow-Release Granular Medium for Soil Improvement, 77
Variables Affecting Emissions of PCDD/Fs from Uncontrolled Combustion of Household Waste in Barrels, 523
A Two-Stage Interval-Stochastic Programming Model for Waste Management under Uncertainty, 540

A Methodology to Estimate Odors around Landfill Sites: The Use of Methane as an Odor Index and Its Utility in Landfill Siting, 629
Partitioning Gas Tracer Tests for Measurement of Water in Municipal Solid Waste, 1391

Solid Waste Management
Compatibility Analysis of Material and Energy Recovery in a Regional Solid Waste Management System, 32

Soot
Daily Surface UV Exposure and Its Relationship to Surface Pollutant Measurements, 237
Evaluation of the Digital Opacity Compliance System in High Mountain Desert Environments, 724

Sorbent Injection
Modeling Sorbent Injection for Mercury Control in Baghouse Filters: I—Model Development and Sensitivity Analysis, 478
Modeling Sorbent Injection for Mercury Control in Baghouse Filters: II—Pilot-Scale Studies and Model Evaluation, 489

Source Apportionment
Source Apportionment of Phoenix $PM_{2.5}$ Aerosol with the Unmix Receptor Model, 325
Source Identification of Atlanta Aerosol by Positive Matrix Factorization, 731

Source Profiles
Source Apportionment of Phoenix $PM_{2.5}$ Aerosol with the Unmix Receptor Model, 325
Diurnal and Weekday Variations in the Source Contributions of Ozone Precursors in California's South Coast Air Basin, 844

South Coast Air Basin
Evolution of the Magnitude and Spatial Extent of the Weekend Ozone Effect in California's South Coast Air Basin, 1981–2000, 802
Diurnal and Weekday Variations in the Source Contributions of Ozone Precursors in California's South Coast Air Basin, 844
Modeling Weekday/Weekend Ozone Differences in the Los Angeles Region for 1997, 864
Day-of-Week Patterns in Toxic Air Contaminants in Southern California, 889
The Distribution of Particle-Phase Organic Compounds in the Atmosphere and Their Use for Source Apportionment during the Southern California Children's Health Study, 1065

Southeastern Aerosol Research and Characterization Study (SEARCH)
Effects of Changes in Sulfate, Ammonia, and Nitric Acid on Particulate Nitrate Concentrations in the Southeastern United States, 283

Stabilization/Solidification
Strength Development of Solidified/Stabilized Organic Waste and Optimum Treatment Design, 1363

Stack Height
Fate and Potential Environmental Effects of Methylenediphenyl Diisocyanate and Toluene Diisocyanate Released into the Atmosphere, 61

State Implementation Plans (SIPs)
Evaluation of NO_x Flue Gas Analyzers for Accuracy and Their Applicability for Low-Concentration Measurements, 749

Stationary Sources
Emissions from Charbroiling and Grilling of Chicken and Beef, 185
2003 Critical Review: Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations—Coalbeds and Deep Saline Aquifers, 645
Effectiveness in the Use of Natural Gas for the Reduction of Atmospheric Emissions: Case Study—Industrial Sector in the Metropolitan Region of Santiago, Chile, 971
Impact of Polycyclic Aromatic Hydrocarbon Emissions from Medical Waste Incinerators on the Urban Atmosphere, 1149
2003 Critical Review Discussion—Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations, 1172
Quantification of Hourly Variability in NO_x Emissions for Baseload Coal-Fired Power Plants, 1401
Methods for Quantifying Variability and Uncertainty in AP-42 Emission Factors: Case Studies for Natural Gas-Fueled Engines, 1436

Stratospheric Ozone Depletion
Daily Surface UV Exposure and Its Relationship to Surface Pollutant Measurements, 237

Sulfates
Short-Term Temporal Variation in $PM_{2.5}$ Mass and Chemical Composition during the Atlanta Supersite Experiment, 1999, 84
Seasonal Aerosol Sulfate Trends for Selected Regions of the United States, 168
Effects of Changes in Sulfate, Ammonia, and Nitric Acid on Particulate Nitrate Concentrations in the Southeastern United States, 283

Sulfur Dioxide
Seasonal Aerosol Sulfate Trends for Selected Regions of the United States, 168
Meta-Analysis of Time-Series Studies of Air Pollution and Mortality: Update in Relation to the Use of Generalized Additive Models, 258
Catalytic Gasification of Coal Using Eutectic Salts: Recovery, Regeneration, and Recycle of Spent Eutectic Catalysts, 451
Prediction of SO_2 Levels Using Neural Networks, 532
Application of the Tracer-Aerosol Gradient Interpretive Technique to Sulfur Attribution for the Big Bend Regional Aerosol and Visibility Observational Study, 586
Comparisons of Statistical Characteristics of Air Pollutants in Taiwan by Frequency Distribution, 608
$PM_{2.5}$ Assessment in 21 European Study Centers of ECRHS II: Method and First Winter Results, 617
Remote Monitoring of Air Pollutant Emissions from Point Sources by a Mobile Lidar/Sodar System, 716
Determination of Atmospheric Nitrogen Input to Lake Greenwood, South Carolina: Part 2—Gaseous Measurements and Modeling, 1499

Sulfur Isotopes
Sulfur and Carbon Cycling in a Flue Gas Desulfurization Sludge Disposal Site, 417

Synoptic Classification
On the Relation between Seasonal Synoptic Circulation Types and Spatial Air Quality Characteristics in Athens, Greece, 309

Systems Analysis
Compatibility Analysis of Material and Energy Recovery in a Regional Solid Waste Management System, 32

Temperature
Waste Burning and Heat Recovery Characteristics of a Mass Burn Incineration System, 136
Weekday/Weekend Ozone Differences: What Can We Learn from Them?, 772

Testing
Comparison of Vehicle Exhaust Emissions from Modified Diesel Fuels, 67

Evaluation of the Digital Opacity Compliance System in High Mountain Desert Environments, 724
Evaluation of a Low-Cost Transient Mass Measurement System in Vehicle Inspection and Maintenance Testing: Results of a Gordon-Darby Study, 1098

Thermal Treatment
Waste Burning and Heat Recovery Characteristics of a Mass Burn Incineration System, 136

Thermophoretic Precipitator
Utilization of Selected Area Electron Diffraction Patterns for Characterization of Air Submicron Particulate Matter Collected by a Thermophoretic Precipitator, 227

Tier 3 Testing
Fatal Flaws in Measuring Landfill Gas Generation Rates by Empirical Well Testing, 461

Toluene
Degradation of Toluene, Xylene, and Trimethylbenzene Vapors by Biofiltration: A Comparison, 217
Summertime Measurements of Benzene and Toluene in Athens Using a Differential Optical Absorption Spectroscopy System, 1052

Toxic Air Pollutants
Comparison of Vehicle Exhaust Emissions from Modified Diesel Fuels, 67
An Application of Parametric and Nonparametric Models to the Assessment of Fluoride Levels in Vegetation Exposed to Stack Emissions of an Aluminum Reduction Plant in Greece, 396
The Mobile Source Effect on Curbside 1,3-Butadiene, Benzene, and Particle-Bound Polycyclic Aromatic Hydrocarbons Assessed at a Tollbooth, 740
Day-of-Week Patterns in Toxic Air Contaminants in Southern California, 889
Changes in Physical Properties of a Compost Biofilter Treating Hydrogen Sulfide, 1011
Does the Harvard/U.S. Environmental Protection Agency Ambient Particle Concentrator Change the Toxic Potential of Particles?, 1088
An Air Quality Data Analysis System for Interrelating Effects, Standards, and Needed Source Reductions: Part 13—Applying the *EPA Proposed Guidelines for Carcinogen Risk Assessment* to a Set of Asbestos Lung Cancer Mortality Data, 1326
Impact of Unleaded Gasoline Introduction on the Concentration of Lead in the Air of Dhaka, Bangladesh, 1355

Toxic Gases
Removal of Ammonia by Biofilters: A Study with Flow-Modified System and Kinetics, 92
Day-of-Week Patterns in Toxic Air Contaminants in Southern California, 889

Toxic Metals
Release of Mercury from Broken Fluorescent Bulbs, 143
Trace Metal Distribution and Control in the Pilot-Scale Bubbling Fluidized Bed Combustor Equipped with the Pulse-Jet Fabric Filter, Limestone Injection, and the Humidification Reactor, 406
Latent Hydraulic Reactivity of Blended Cement Incorporating Slag Made from Municipal Solid Waste Incinerator Fly Ash, 1340

Toxicology
Toxicity of Chemical Components of Fine Particles Inhaled by Aged Rats: Effects of Concentration, 1080
Does the Harvard/U.S. Environmental Protection Agency Ambient Particle Concentrator Change the Toxic Potential of Particles?, 1088

Tracer Techniques
Revised Air-Exchange Efficiency Considering Occupant Distribution in Ventilated Rooms, 759
Changes in Physical Properties of a Compost Biofilter Treating Hydrogen Sulfide, 1011
The Distribution of Particle-Phase Organic Compounds in the Atmosphere and Their Use for Source Apportionment during the Southern California Children's Health Study, 1065

Tracers
Application of the Tracer-Aerosol Gradient Interpretive Technique to Sulfur Attribution for the Big Bend Regional Aerosol and Visibility Observational Study, 586
Changes in Physical Properties of a Compost Biofilter Treating Hydrogen Sulfide, 1011

Tradescantia pallida
Tradescantia pallida cv. *purpurea* Boom in the Characterization of Air Pollution by Accumulation of Trace Elements, 574

Traffic
Source Profiles and Ozone Formation Potentials of Volatile Organic Compounds in Three Traffic Tunnels in Kaohsiung, Taiwan, 102
Dispersion of Volatile Hydrocarbons in Urban Street Canyons, 497
The Mobile Source Effect on Curbside 1,3-Butadiene, Benzene, and Particle-Bound Polycyclic Aromatic Hydrocarbons Assessed at a Tollbooth, 740
Modeling Weekday/Weekend Ozone Differences in the Los Angeles Region for 1997, 864

Treatment Technologies
Catalytic Gasification of Coal Using Eutectic Salts: Recovery, Regeneration, and Recycle of Spent Eutectic Catalysts, 451
Changes in Physical Properties of a Compost Biofilter Treating Hydrogen Sulfide, 1011
Biofiltration of Cyclic Air Emissions of α-Pinene at Low and High Frequencies, 1373

Trend Analysis
Evolution of the Magnitude and Spatial Extent of the Weekend Ozone Effect in California's South Coast Air Basin, 1981–2000, 802
The Southeastern Aerosol Research and Characterization Study: Part 1—Overview, 1460
Particulate Matter in California: Part 2—Spatial, Temporal, and Compositional Patterns of $PM_{2.5}$, $PM_{10-2.5}$, and PM_{10}, 1517

Trimethylbenzene
Degradation of Toluene, Xylene, and Trimethylbenzene Vapors by Biofiltration: A Comparison, 217

U.S. Environmental Protection Agency (EPA)
Daily Surface UV Exposure and Its Relationship to Surface Pollutant Measurements, 237
The Ozone Formation Potential of 1-Bromo-Propane, 262
Estimates of Cloud Water Deposition at Mountain Acid Deposition Program Sites in the Appalachian Mountains, 291
Variables Affecting Emissions of PCDD/Fs from Uncontrolled Combustion of Household Waste in Barrels, 523
Evaluation of NO_x Flue Gas Analyzers for Accuracy and Their Applicability for Low-Concentration Measurements, 749
Evaluation of a Low-Cost Transient Mass Measurement System in Vehicle Inspection and Maintenance Testing: Results of a Gordon-Darby Study, 1098

Uncertainty
A Two-Stage Interval-Stochastic Programming Model for Waste Management under Uncertainty, 540

Upflow Anaerobic Sludge Blanket
Case Studies on Biological Treatment of Tannery Effluents in India, 976

Urban Areas
Source Profiles and Ozone Formation Potentials of Volatile Organic Compounds in Three Traffic Tunnels in Kaohsiung, Taiwan, 102
Urban Photochemical Pollution in the Iberian Peninsula: Lisbon and Barcelona Airsheds, 347
Dispersion of Volatile Hydrocarbons in Urban Street Canyons, 497
Residential Indoor, Outdoor, and Workplace Concentrations of Carbonyl Compounds: Relationships with Personal Exposure Concentrations and Correlation with Sources, 560
Day-of-Week Behavior of Atmospheric Ozone in Three U.S. Cities, 789
Evolution of the Magnitude and Spatial Extent of the Weekend Ozone Effect in California's South Coast Air Basin, 1981–2000, 802
Diurnal and Weekday Variations in the Source Contributions of Ozone Precursors in California's South Coast Air Basin, 844
Particulate and Sulfur Dioxide Concentration Measurements in Patras, Greece, 957
Summertime Measurements of Benzene and Toluene in Athens Using a Differential Optical Absorption Spectroscopy System, 1052

Vegetation
An Application of Parametric and Nonparametric Models to the Assessment of Fluoride Levels in Vegetation Exposed to Stack Emissions of an Aluminum Reduction Plant in Greece, 396

Ventilation
Source Apportionment of Airborne Fine Particulate Matter in an Underground Mine, 386
Revised Air-Exchange Efficiency Considering Occupant Distribution in Ventilated Rooms, 759

Visibility
Analysis of a Summertime $PM_{2.5}$ and Haze Episode in the Mid-Atlantic Region, 946

Vitrification
Gaseous and Particulate Emissions from a DC Arc Melter, 13
Effect of SiO_2 on Immobilization of Metals and Encapsulation of a Glass Network in Slag, 1412

Volatile Organic Compounds (VOCs)
Method for Predicting Photocatalytic Oxidation Rates of Organic Compounds, 3
Comparison of Vehicle Exhaust Emissions from Modified Diesel Fuels, 67
Source Profiles and Ozone Formation Potentials of Volatile Organic Compounds in Three Traffic Tunnels in Kaohsiung, Taiwan, 102
Understanding the Effectiveness of Precursor Reductions in Lowering 8-Hr Ozone Concentrations, 195
The Ozone Formation Potential of 1-Bromo-Propane, 262
Volatile Organic Profiles and Photochemical Potentials from Motorcycle Engine Exhaust, 516
Residential Indoor, Outdoor, and Workplace Concentrations of Carbonyl Compounds: Relationships with Personal Exposure Concentrations and Correlation with Sources, 560
Microwave Plasma Conversion of Volatile Organic Compounds, 580
The Mobile Source Effect on Curbside 1,3-Butadiene, Benzene, and Particle-Bound Polycyclic Aromatic Hydrocarbons Assessed at a Tollbooth, 740
Weekday/Weekend Ozone Differences: What Can We Learn from Them?, 772
Differences between Weekday and Weekend Air Pollutant Levels in Southern California, 816
Modeling Weekday/Weekend Ozone Differences in the Los Angeles Region for 1997, 864
Emission Characteristics of Volatile Organic Compounds from Semiconductor Manufacturing, 1029
An Assessment of the Emissions Inventory Processing Systems EMS-2001 and SMOKE in Grid-Based Air Quality Models, 1121
Effect of pH and Temperature on the Kinetics of Odor Oxidation Using Chlorine Dioxide, 1218
Biofiltration of Trichloroethylene-Contaminated Air: A Pilot Study, 1248
Potential for Reducing Indoor Styrene Exposure from Copied Paper through Use of Low-Emitting Toners, 1347
Biofiltration of Cyclic Air Emissions of α-Pinene at Low and High Frequencies, 1373
Particulate Matter in California: Part 2—Spatial, Temporal, and Compositional Patterns of $PM_{2.5}$, $PM_{10-2.5}$, and PM_{10}, 1517

Waste Disposal
Release of Mercury from Broken Fluorescent Bulbs, 143
Catalytic Gasification of Coal Using Eutectic Salts: Recovery, Regeneration, and Recycle of Spent Eutectic Catalysts, 451

Waste Management
Utilization of Coal Fly Ash as a Slow-Release Granular Medium for Soil Improvement, 77
Release of Mercury from Broken Fluorescent Bulbs, 143
Trace Metal Distribution and Control in the Pilot-Scale Bubbling Fluidized Bed Combustor Equipped with the Pulse-Jet Fabric Filter, Limestone Injection, and the Humidification Reactor, 406

Day-of-Week Patterns of Particulate Matter and Its Chemical Components at Selected Sites in California, 876

Trillo, E.A.
Utilization of Selected Area Electron Diffraction Patterns for Characterization of Air Submicron Particulate Matter Collected by a Thermophoretic Precipitator, 227

Tsai, C.-H.
Deodorization of Dimethyl Sulfide Using a Discharge Approach at Room Temperature, 1225

Tsai, C.-J.
Control of Particle Re-Entrainment by Wetting the Exposed Surface of Dust Samples, 1191
Simultaneous Sampling of Gas- and Aerosol-Phase TDI with a Triple Filter System, 1265

Tsai, J.-H.
Volatile Organic Profiles and Photochemical Potentials from Motorcycle Engine Exhaust, 516

Tsai, M.-C.
The Reuse of Biosludge as an Adsorbent from a Petrochemical Wastewater Treatment Plant, 1042

Tsai, P.-J.
Impact of Polycyclic Aromatic Hydrocarbon Emissions from Medical Waste Incinerators on the Urban Atmosphere, 1149
Effect of SiO_2 on Immobilization of Metals and Encapsulation of a Glass Network in Slag, 1412

Tseng, T.K.
A Feasibility Study on the Predictive Emission Monitoring System Applied to the Hsinta Power Plant of Taiwan Power Company, 1022

Tsiros, I.X.
An Application of Parametric and Nonparametric Models to the Assessment of Fluoride Levels in Vegetation Exposed to Stack Emissions of an Aluminum Reduction Plant in Greece, 396

Turkiewicz, K.
Particulate Matter in California: Part 1—Intercomparison of Several $PM_{2.5}$, $PM_{10-2.5}$, and PM_{10} Monitoring Networks, 1509

Tury, B.
Fate and Potential Environmental Effects of Methylenediphenyl Diisocyanate and Toluene Diisocyanate Released into the Atmosphere, 61

Tzeng, B.-Y.
Latent Hydraulic Reactivity of Blended Cement Incorporating Slag Made from Municipal Solid Waste Incinerator Fly Ash, 1340

Unal, A.
On-Road Measurement of Vehicle Tailpipe Emissions Using a Portable Instrument, 992

Vall, O.
Sources and Concentrations of Indoor Nitrogen Dioxide in Barcelona, Spain, 1312

van Harreveld, A.Ph.
Odor Concentration Decay and Stability in Gas Sampling Bags, 51

Vargiu, L.
Generation of PCDD/F in Fly Ash from Municipal Solid Waste Incinerators, 914

Vartiainen, M.
Residential Indoor, Outdoor, and Workplace Concentrations of Carbonyl Compounds: Relationships with Personal Exposure Concentrations and Correlation with Sources, 560

Vermeire, P.
$PM_{2.5}$ Assessment in 21 European Study Centers of ECRHS II: Method and First Winter Results, 617

Vidic, R.D.
Modeling Sorbent Injection for Mercury Control in Baghouse Filters: I—Model Development and Sensitivity Analysis, 478
Modeling Sorbent Injection for Mercury Control in Baghouse Filters: II—Pilot-Scale Studies and Model Evaluation, 489

Vu, B.
Evaluation of NO_x Flue Gas Analyzers for Accuracy and Their Applicability for Low-Concentration Measurements, 749

Wagner, D.A.
Characterization of Exhaust Particles from Military Vehicles Fueled with Diesel, Gasoline, and JP-8, 273

Walsh, M.
Evaluation of NO_x Flue Gas Analyzers for Accuracy and Their Applicability for Low-Concentration Measurements, 749

Walter, G.R.
Fatal Flaws in Measuring Landfill Gas Generation Rates by Empirical Well Testing, 461

Wang, K.-S.
Latent Hydraulic Reactivity of Blended Cement Incorporating Slag Made from Municipal Solid Waste Incinerator Fly Ash, 1340

Watson, J.G.
Emissions from Charbroiling and Grilling of Chicken and Beef, 185
2003 Critical Review Discussion—Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations, 1172

Watson, T.
Application of the Tracer-Aerosol Gradient Interpretive Technique to Sulfur Attribution for the Big Bend Regional Aerosol and Visibility Observational Study, 586

Weber, R.
Short-Term Temporal Variation in $PM_{2.5}$ Mass and Chemical Composition during the Atlanta Supersite Experiment, 1999, 84

Weiss, J.D.
Using Fiber Optics to Detect Moisture Intrusion into a Landfill Cap Consisting of a Vegetative Soil Barrier, 1130

Wenny, B.N.
Daily Surface UV Exposure and Its Relationship to Surface Pollutant Measurements, 237

White, C.M.
2003 Critical Review: Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations—Coalbeds and Deep Saline Aquifers, 645
2003 Critical Review Discussion—Separation and Capture of CO_2 from Large Stationary Sources and Sequestration in Geological Formations, 1172

White, W.
Day-of-Week Behavior of Atmospheric Ozone in Three U.S. Cities, 789

Whitten, G.Z.
The Ozone Formation Potential of 1-Bromo-Propane, 262

Wiesen, P.
Effect of Gasoline Formulation on the Formation of Photosmog: A Box Model Study, 425

Williams, P.
Evaluation of NO_x Flue Gas Analyzers for Accuracy and Their Applicability for Low-Concentration Measurements, 749

Winka, M.
Release of Mercury from Broken Fluorescent Bulbs, 143

Winterrowd, C.K.
Variables Affecting Emissions of PCDD/Fs from Uncontrolled Combustion of Household Waste in Barrels, 523

Winters, D.L.
Variables Affecting Emissions of PCDD/Fs from Uncontrolled Combustion of Household Waste in Barrels, 523

Wolff, G.T.
Weekday/Weekend Ozone Differences: What Can We Learn from Them?, 772

Wolfinger, R.
Mixed Models for Assessing Correlation in the Presence of Replication, 442

Xu, N.
A Constant-Volume Rapid Exhaust Dilution System for Motor Vehicle Particulate Matter Number and Mass Measurements, 1196

Xu, Y.
Catalytic Gasification of Coal Using Eutectic Salts: Recovery, Regeneration, and Recycle of Spent Eutectic Catalysts, 451

Yanagi, Y.
Ground-Level Ozone Mapping in Large Urban Areas Using Multivariate Statistical Analysis: Application to the São Paulo Metropolitan Area, 553

Yang, C.-Y.
Volatile Organic Profiles and Photochemical Potentials from Motorcycle Engine Exhaust, 516

Yang, G.
Microwave Plasma Conversion of Volatile Organic Compounds, 580

Yang, H.S.
Selective Leaching of Valuable Metals from Waste Printed Circuit Boards, 897

Yang, J.
Revised Air-Exchange Efficiency Considering Occupant Distribution in Ventilated Rooms, 759

Yannopoulos, P.C.
Particulate and Sulfur Dioxide Concentration Measurements in Patras, Greece, 957

Yanowitz, J.
Particulate Matter Emissions during Transient Locomotive Operation: Preliminary Study, 1241

Yarwood, G.
Modeling Weekday/Weekend Ozone Differences in the Los Angeles Region for 1997, 864

Yeboah, Y.D.
Catalytic Gasification of Coal Using Eutectic Salts: Recovery, Regeneration, and Recycle of Spent Eutectic Catalysts, 451

Yoo, J.G.
Utilization of Coal Fly Ash as a Slow-Release Granular Medium for Soil Improvement, 77

Zalewsky, E.
An Assessment of the Emissions Inventory Processing Systems EMS-2001 and SMOKE in Grid-Based Air Quality Models, 1121

Zapater, M.
Sources and Concentrations of Indoor Nitrogen Dioxide in Barcelona, Spain, 1312

Zhao, B.
Revised Air-Exchange Efficiency Considering Occupant Distribution in Ventilated Rooms, 759

Zhu, J.
Comparison of Vehicle Exhaust Emissions from Modified Diesel Fuels, 67

Zielinska, B.
Emissions from Charbroiling and Grilling of Chicken and Beef, 185
Characterization of Exhaust Particles from Military Vehicles Fueled with Diesel, Gasoline, and JP-8, 273
Source Apportionment of Airborne Fine Particulate Matter in an Underground Mine, 386
Diurnal and Weekday Variations in the Source Contributions of Ozone Precursors in California's South Coast Air Basin, 844

Ziman, S.D.
Understanding the Effectiveness of Precursor Reductions in Lowering 8-Hr Ozone Concentrations, 195
